# How to use this book

*French for Everyone Junior: 5 Words a Day* is a vocabulary book for children that teaches and tests more than 1,000 French words. Words are taught in weekly units of 5 days.

## Learning new vocabulary

On Days 1-4, the child will be presented with 20 new words, which are taught 5 words at a time through colourful illustrations.

- 1 First, listen to the words on the audio app or website, repeat the words out loud, and then write them out in the space below each word.

### Masculine and feminine words

In French, all nouns (things or people) are either masculine or feminine. You will notice that many words have “le”, “la”, or “les” in front of them. These all mean “the” in English. If a word has “le” before it, it is masculine. If it has “la” in front of it, it is feminine. “Les” is used before masculine and feminine plurals.

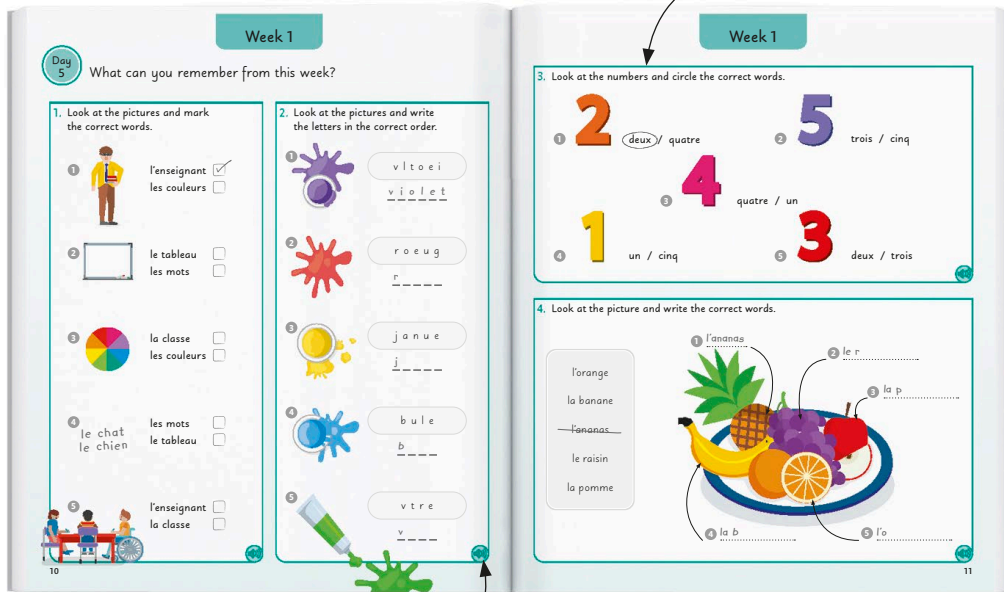

- 2 Next, use the book flaps to cover the illustrations and listen to the words again.
- 3 With the words still covered, try writing out each word from memory.

# Testing new vocabulary

On Day 5, the child can practise the 20 new words and reinforce their learning through fun exercises.

A variety of exercises are used to test all 20 words.

Once you have finished an exercise, listen to the words again on the app or website.

Answers to all the questions are given at the back of the book.

## Audio

Pronunciation is an important aspect of learning a new language. Audio for all the words in this book is available on the **DK 5 Words** website and app. You should encourage your child to listen to the audio and repeat the words out loud.

Access the audio recordings for free at [www.dk5words.com/uk](http://www.dk5words.com/uk) or download the **DK 5 Words** app from the App Store or Google Play.

# French word list

Each word is followed by the number of the week it appears in. For words that are not in a weekly unit, a page number is given (for example, p216).

In French, all nouns (things or people) are either masculine or feminine (see p6). Adjectives (describing words) also change depending on whether the noun they are describing is masculine or feminine.

When two options for nouns or adjectives are given in the following list (for example, amical / amicale), the masculine is given first.
