With increased accountability in ensuring academic success for all learners, testing now takes a significant amount of time for students in all settings. Standardized tests are designed to measure what students know. These tests are nationally normed. State tests are usually tied to specific academic standards identified for mastery.

For many students, testing can be a mystery. They fear not doing well and not knowing what to expect on the test. This *Spectrum Test Practice* book was developed to introduce students to both the format and the content they will encounter on tests. It was developed on the assumption that students have received prior instruction on the skills included. This book is designed to cover the content on a representative sample of state standards. The sampling of standards is found on pages 8–10 with a correlation to the skills covered in this book and a correlation to sample standardized tests. Spaces are provided to record the correlation to the tests being administered by the user of this book. Spaces are also provided to add standards that are specific to the user.

Features of *Spectrum Test Practice*

- Skill lessons, sample tests for subtopics, and comprehensive content area tests
- Clues for being successful with specific skills
- Correlation of skills to state standards and standardized tests
- Format and structure similar to other formal tests
- Written response required in the Science and Social Studies sections
- Reproducible for use by a teacher for a classroom

Overview

This book is developed within content areas (Reading, Language, Math, Science, and Social Studies). A comprehensive practice test follows at the end of the content area, with an answer sheet for students to record responses. Within each content area, specific subtopics have been identified. Sample tests are provided for each subtopic. Within each subtopic, specific skill lessons are presented. These specific skill lessons include an example and a clue for being successful with the skill.

Comprehensive Practice Test

A comprehensive practice test is provided for each content area. The subtopics for each area are identified below:

- **Reading**
 - Vocabulary (synonyms, antonyms, analogies, multi-meaning words, and words in context)
 - Reading Comprehension (main idea, recalling details, sequencing, inferencing, drawing conclusions, fact and opinion, cause and effect, story elements, and author's purpose in fiction and nonfiction articles)
- **Language**
 - Language Mechanics (capitalization and punctuation)
 - Language Expression (nouns/pronouns, verbs, adjectives, sentences, and paragraphs)
 - Spelling (both correct and incorrect spelling)
 - Study Skills (dictionary skills, reference materials, book parts)

- **Math**

- Concepts (numeration, number concepts, properties, fractions, decimals, and algebra)
- Computation (addition and subtraction of whole numbers, fractions, and decimals; multiplication and division facts)
- Applications (geometry, measurement, and problem solving)

- **Science***

- Electricity/Magnetism
- Plant and Animal Structures
- Water/Weather Cycles
- Astronomy

- **Social Studies***

- Geography Terms/Concepts
- Rights and Responsibilities of Citizens
- History of the United States
- Map Skills/Time Lines
- Economics

*Since states and often districts determine units of study within Science and Social Studies, the content in this book may not be aligned with the content offered in all courses of study. The content within each area is grade level appropriate. It is based on a sampling of state standards. The tests in Science and Social Studies include both multiple choice and written answer.

Comprehensive Practice Test Includes

- Content Area (i.e. Language)
- Subtopics (i.e. Language Mechanics)
- Directions, examples, and test questions
- Separate answer sheet with “bubbles” to be filled in for answers

Sample Tests

Sample tests are included for all subtopics. These sample tests are designed to apply the knowledge and experience from the skill lessons in a more formal format. No clues are included. These sample tests are shorter than the comprehensive tests and longer than the skill lessons. The skills on the test items are presented in the same order as introduced in the book.

Sample Tests Include

- Subtopic (i.e. Language Mechanics)
- Directions, examples, and test questions

Skill Lessons

Skill lessons include sample questions and clues for mastering the skill. The questions are formatted as they generally appear in tests, whether the tests are standardized and nationally normed or state specific.

Skill Lessons Include

- Subtopic (i.e. Language Mechanics)
- Skill (i.e. Punctuation)
- Directions and examples
- Clues for completing the activity
- Practice questions

Use

This book can be used in a variety of ways, depending on the needs of the students. Some examples follow:

- Review the skills correlation on pages 8–10. Record the skills tested in your state and/or district on the blanks provided.
- Administer the comprehensive practice test for each content area. Have students use the sample answer sheet in order to simulate the actual testing experience. The tests for

Reading, Language, and Math are multiple choice. Evaluate the results.

- Administer the sample test for the subtopics within the content area. Evaluate the results.
- Administer the specific skill lessons for those students needing additional practice with content. Evaluate the results.
- Use the skill lessons as independent work in centers, for homework, or as seatwork.
- Prepare an overhead transparency of skill lessons to be presented to a group of students. Use the transparency to model the skill and provide guided practice.
- Send home the Letter to Parent/Guardian found on page 7.

Clues for Getting Started

- Determine the structure for implementing *Spectrum Test Practice*. These questions may help guide you:
 - Do you want to assess the overall performance of your class in each academic area? If so, reproduce the practice test and sample answer sheet for each area. Use the results to determine subtopics that need additional instruction and/or practice.
 - Do you need more information about their achievement within subtopics, such as Vocabulary within Reading? If so, reproduce the sample tests for the subtopics.
 - Do your students need additional practice with some of the specific skills that they will encounter on the standardized test? Do you need to

know which students have mastered which skills? These skill lessons provide opportunities for instruction and practice.

- Go over the purpose of tests with your students. Describe the tests and the testing situation, explaining that the tests are often timed. Make certain that students know how to mark the answer sheet and that the questions cover material they have studied.
- Do some of the skill lessons together to help students develop strategies for selecting answers and for different types of questions. Use the “clues” for learning strategies for test taking.
- Review the directions for each test. Do the sample test questions with the class.
- Remind students to answer each question and to budget their time so they can complete all the questions.

Reduce the mystery of taking tests for your students. By using *Spectrum Test Practice*, you have the materials that show them what the tests will look like, what kinds of questions are on the tests, and ways to help them be more successful taking tests.

Note: The reading comprehension questions in all selections are in the same order: main idea, recalling details/sequencing, inferencing/drawing conclusions, fact and opinion/cause and effect. This information can be used to diagnose areas for needed instruction.

Note: If you wish to time your students on a practice test, we suggest allowing 1.25 minutes per question for this grade level.

Dear Parent/Guardian:

We will be giving tests to measure your child's learning. These tests include questions that relate to the information your child is learning in school. The tests may be standardized and used throughout the nation, or they may be specific to our state. Regardless of the test, the results are used to measure student achievement.

Many students do not test well even though they know the material. They may not test well because of test anxiety or the mystery of taking tests. What will the test look like? What will some of the questions be? What happens if I do not do well?

To help your child do his/her best on the tests, we will be using some practice tests. These tests help your child learn what the tests will look like, what some of the questions might be, and ways to learn to take tests. These practice tests will be included as part of your child's homework.

You can help your child with this important part of learning. Below are some suggestions:

- Ask your child if he/she has homework.
- Provide a quiet place to work.
- Go over the work with your child.
- Use a timer to help your child learn to manage his/her time when taking tests.
- Tell your child he/she is doing a good job.
- Remind him/her to use the clues that are included in the lessons.

If your child is having difficulty with the tests, these ideas may be helpful:

- Review the examples.
- Skip the difficult questions and come back to them later.
- Guess at those that you do not know.
- Answer all the questions.

By showing you are interested in how your child is doing, he/she will do even better in school. Enjoy this time with your child. Good luck with the practice tests.

Sincerely,

READING: VOCABULARY

● Lesson 1: Synonyms

Directions: Read each item. Choose the answer that means the same or about the same as the underlined word.

Examples

A. delicious pie

- (A) salty
- (B) bad
- (C) gentle
- (D) tasty

B. She picked a meadow flower.

- (F) iceberg
- (G) swamp
- (H) field
- (J) forest

If you are not sure about the right answer, say the phrase once using each answer choice to replace the underlined word.

● Practice

1. automobile show

- (A) train
- (B) car
- (C) plane
- (D) wagon

2. faint cry

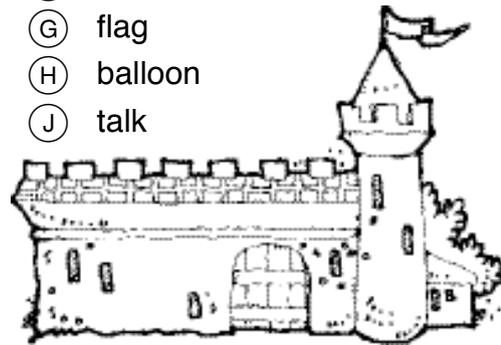

- (F) soft
- (G) loud
- (H) sad
- (J) angry

3. ordinary day

- (A) strange
- (B) memorable
- (C) rainy
- (D) usual

4. The castle flew a bright banner.

- (F) cloud
- (G) flag
- (H) balloon
- (J) talk

5. She found the store entrance.

- (A) cart
- (B) cashier
- (C) doorway
- (D) stairs

6. Zip was a strange creature.

- (F) floor
- (G) animal
- (H) cloth
- (J) doctor

READING: VOCABULARY

● Lesson 2: Vocabulary Skills

Directions: Read each item. Choose the answer that means the same or about the same as the underlined word.

Examples

<p>A. A pair of birds</p> <ul style="list-style-type: none"> (A) a dozen (B) white (C) one (D) two 	<p>B. To be worried is to be—</p> <ul style="list-style-type: none"> (F) friendly (G) concerned (H) lost (J) injured
---	---

Your first answer choice is probably correct. Don't change it unless you are sure another answer is better.

● Practice

1. A secret bond

- (A) tie
- (B) search
- (C) trap
- (D) light

2. Attend a class

- (F) skip
- (G) pass
- (H) like
- (J) go to

3. A prize pig

- (A) award-winning
- (B) clever
- (C) pink
- (D) bad

4. Towering cliff

- (F) tipping over
- (G) handmade
- (H) high
- (J) low

5. To shoplift is to—

- (A) buy
- (B) steal
- (C) weigh
- (D) walk

6. A basement is like a—

- (F) staircase
- (G) attic
- (H) kitchen
- (J) cellar

7. To faint is to—

- (A) bow
- (B) wake up
- (C) pass out
- (D) pretend

8. To be disturbed is to be—

- (F) noisy
- (G) calm
- (H) joyful
- (J) upset

READING: VOCABULARY

● Lesson 3: Antonyms

Directions: Read each item. Choose the answer that means the opposite of the underlined word.

Examples

A. The ladder is unsafe.

- (A) dangerous
- (B) safe
- (C) rickety
- (D) scary

B. Shiny shoes

- (F) glowing
- (G) clean
- (H) neat
- (J) dull

Keep in mind that you are looking for the answer that is the opposite of the underlined word.

● Practice

1. Joseph was annoyed with his cat.

- (A) angry
- (B) worried
- (C) tired
- (D) satisfied

2. I saw the boat sink.

- (F) race
- (G) dive
- (H) float
- (J) drown

3. Janna was ravenous.

- (A) hungry
- (B) full
- (C) starving
- (D) sleepy

4. My grandparents strolled in the garden.

- (F) walked
- (G) jogged
- (H) talked
- (J) wandered

5. Polluted stream

- (A) poisonous
- (B) clean
- (C) flowing
- (D) dirty

6. Grave event

- (F) happy
- (G) serious
- (H) grim
- (J) likely

7. A chance for everybody

- (A) everyone
- (B) the crowd
- (C) the class
- (D) nobody

8. Hard question

- (F) easy
- (G) difficult
- (H) strange
- (J) rough

READING: VOCABULARY

● Lesson 4: Multi-Meaning Words

Examples

For A and numbers 1–3, read the two sentences. Then choose the word that fits in the blank in both sentences.

A. Use the _____ to make the hole.
The _____ at the party was delicious.

- (A) shovel
- (B) dig
- (C) punch
- (D) rake

For B and numbers 4–6, find the answer in which the underlined word is used in the same way as in the box.

B. This **kind** of plant is rare.

- (F) Mrs. Rodriguez is kind.
- (G) The kind man smiled.
- (H) I like this kind of cereal.
- (J) No one thinks that person is kind.

Be careful! Only one answer is correct. Make sure your choice matches the example or fits in both blanks.

● Practice

1. The tree had rough _____.
The dog wanted to _____ all the time.

- (A) branches
- (B) yap
- (C) bark
- (D) jump

2. Did the baby _____ the toy?
Mr. Lee wanted to take a _____.

- (F) sleep
- (G) lose
- (H) ruin
- (J) break

3. Dad gets a _____ every week.
I want to _____ my math homework.

- (A) note
- (B) redo
- (C) check
- (D) payment

4. The knight will **bow** to the queen.

- (F) She tied a big bow on the gift.
- (G) I know that I should bow to my dance partner.
- (H) Did you see how the bow matched her dress?
- (J) A bow is made of ribbon.

5. Put your **hand** on the table.

- (A) Give Mr. Johnson a hand.
- (B) The band deserves a hand for their music.
- (C) Please give your little sister your hand.
- (D) I have to hand it to you.

6. You need to do it this **way**.

- (F) The king sat way up on the throne.
- (G) The recipe shows the way to make a cake.
- (H) He found his way home.
- (J) I don't know the way to the school.

READING: VOCABULARY

● Lesson 5: Words in Context

Examples

Read each item. For A and numbers 1–3, choose the answer that fits best in the blank.

A. My mother used the garden _____ to wash the dog.

- (A) rake
- (B) seeds
- (C) hose
- (D) gloves

For B and numbers 4–6, find the word that means the same thing as the underlined word.

B. Are you starting on your journey?
Journey means—

- (F) class
- (G) lesson
- (H) trip
- (J) vacation

The meaning of the sentence will give you a clue about which answer to choose.

● Practice

1. The _____ roller-coaster ride made us yell out loud.

- (A) interesting
- (B) boring
- (C) slow
- (D) thrilling

2. The stormy weather will _____ all night.

- (F) change
- (G) continue
- (H) stop
- (J) knock

3. You should _____ this idea.

- (A) think
- (B) drive
- (C) consider
- (D) write

4. Please find me Volume K of the encyclopedia. Volume means—

- (F) amount
- (G) book
- (H) measurement
- (J) large

5. His grades have improved.
Improved means—

- (A) gotten better
- (B) gotten worse
- (C) fixed
- (D) painted

6. Tara's excuse was a good one.
Excuse means—

- (F) dismiss
- (G) forgive
- (H) explanation
- (J) forgotten

READING: VOCABULARY

SAMPLE TEST

● **Directions:** Read each item. Choose the answer that means the same or about the same as the underlined word.

Examples

A. extremely windy

- (A) slightly
- (B) somewhat
- (C) often
- (D) very

B. create a painting

- (F) make
- (G) see
- (H) view
- (J) change

1. preferred subject

- (A) private
- (B) known
- (C) happy
- (D) chosen

5. comfy chair

- (A) wooden
- (B) folding
- (C) hard
- (D) cozy

2. major holiday

- (F) different
- (G) past
- (H) big
- (J) rewarded

6. salary raise

- (F) winning
- (G) pay
- (H) barn
- (J) new

3. good memory

- (A) recall
- (B) thought
- (C) day
- (D) holiday

7. terrified rabbit

- (A) scared
- (B) angry
- (C) sad
- (D) hungry

4. leading onward

- (F) down
- (G) forward
- (H) back
- (J) aside

8. important test

- (F) paper
- (G) exam
- (H) contest
- (J) unit

READING: VOCABULARY**SAMPLE TEST (cont.)**

For numbers 9–12, read each item. Choose the answer that means the opposite of the underlined word.

9. Harriet Tubman won her freedom.

- (A) lost
- (B) pay
- (C) liberty
- (D) prize

10. The grimy cat stretched.

- (F) scared
- (G) small
- (H) happy
- (J) spotless

11. I find yard work tiring.

- (A) simple
- (B) energizing
- (C) hard
- (D) silly

12. Who will read the brief poem?

- (F) short
- (G) funny
- (H) tiny
- (J) long

For numbers 13–17, choose the best word to fill in the blank.

13. The bus was more _____ than usual.

- (A) cost
- (B) crowded
- (C) liberty
- (D) prize

14. Don't forget to _____ your letter.

- (F) mail
- (G) small
- (H) happy
- (J) male

15. We can't sit in the _____ seats.

- (A) second
- (B) difficult
- (C) reserved
- (D) under

16. I think that Jeff is a _____ person.

- (F) third
- (G) basement
- (H) underneath
- (J) friendly

17. The _____ pace was not hard to keep.

- (A) steady
- (B) super
- (C) tiring
- (D) bad

READING: READING COMPREHENSION**● Lesson 6: Main Idea**

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

At 5:00 P.M., we were called to the home of a Mr. and Mrs. Bear. They found that the lock on their front door had been forced open. Food had been stolen and a chair was broken. Baby Bear then went upstairs and found someone asleep in his bed.

A. What is the main idea of this paragraph?

- (A) Someone broke a lock.
- (B) Someone stole some food.
- (C) Mr. and Mrs. Bear's house was broken into.
- (D) Baby Bear found his bed.

Look back to the item to find each answer, but don't keep rereading the story.

● Practice***Pioneer Diary***

Today, we left our dear home in Ohio forever. Soon we will be a thousand miles away. The distance is too great for us to ever return. Oh, how Grandmother cried as we said goodbye! Uncle Dan and Aunt Martha have bought our farm, so it is no longer our home. All we have now is what is here in our wagon.

When we drove past the woods at the edge of our fields, Papa said to me, "Ellen, take a good look at those trees. It will be many years before we see big trees like that again. We will have to plant trees on the prairie." I felt like crying, just like Grandmother, but I wanted to show Papa that I could be brave.

1. What is the main idea of this story?

- (A) Ellen feels like crying.
- (B) Ellen wants to be brave.
- (C) Ellen and her father are moving to the prairie.
- (D) Ellen's father has sold his farm.

2. How do you know the place to which Ellen is moving?

- (F) Her grandmother cries.
- (G) Her father says they will have to plant trees on the prairie.
- (H) Her father has packed a wagon.
- (J) Ellen is keeping a diary.

3. Why does Ellen say she is leaving "forever"?

- (A) In pioneer days, people were not allowed to come back home again.
- (B) In pioneer days, the trip out West was thousands of miles.
- (C) In pioneer days, it was too far to travel back and forth for visits.
- (D) In pioneer days, people did not sell their farms.

READING: READING COMPREHENSION

Lesson 7: Recalling Details

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

Emily Ann wears a long, blue dress, a blue bonnet, and a shawl. Her head is made of china and her shoes are real leather. Emily Ann has lived with the same family for almost two hundred years. But her new owner, Betty, is forgetful. Yesterday, she left Emily Ann in the park.

A. Which detail tells you that Emily Ann is a doll?

- (A) Her shoes are made of leather.
- (B) She wears a shawl.
- (C) Her head is made of china.
- (D) She wears a long blue dress.

Skim the passage, then read the questions. Look for the specific details in phrases of the story.

Practice

The Perfect Party

Ian turned on his computer and started searching the Internet for ideas. This year, he wanted to give the best Fourth of July party ever. It was Ian’s favorite holiday because it was also his birthday. Ian wanted to find ideas for games and prizes. He wanted recipes for red, white, and blue food. He wanted ideas for signs and decorations. When Ian saw a Web site called “Perfect Parties for Patriots,” he knew he had found exactly the right place to start his party planning.

1. Why is the Fourth of July Ian’s favorite holiday?

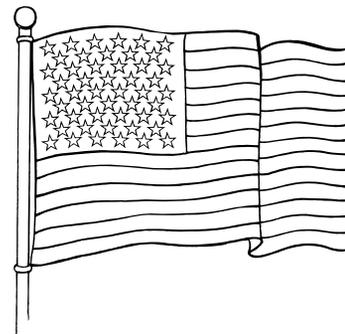

- (A) Red, white, and blue are his favorite colors.
- (B) The Fourth of July is a great day for games and prizes.
- (C) The Fourth of July is Ian’s birthday.
- (D) Ian is a patriot who loves his country.

2. Which of the following things did Ian not look for on the Internet?

- (F) ideas for games and prizes
- (G) recipes for red, white, and blue food
- (H) ideas for decorations
- (J) places to see firework displays

3. What was the name of the Web site that Ian found?

- (A) “Parties for Perfect Patriots”
- (B) “Patriot Parties”
- (C) “Perfect Parties for Patriots”
- (D) “Perfect Patriotic Parties”

● Lesson 8: Inferencing

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

Maria got a bicycle for her birthday.
 “I hope I don’t make a mistake,” said Maria.
 “This is the first time that I’ve ever put a
 bike together.”

Later, her friend Chris saw Maria’s new
 bike. Chris asked, “Maria, will you help me put
 my new bike together?”

**A. Which answer isn’t said directly in
 this story, but is one that you can
 guess from the story?**

- (A) Chris didn’t like Maria.
- (B) Maria’s bike was a birthday present.
- (C) Maria did a good job of putting her bike together.

If a question confuses you, try restating it to yourself. That might help you understand the question better.

● Practice

The Hitchhiker

I need to go across the street,
 But I’m too tired. I have eight sore feet!
 I’ll climb up on this person’s shoe.
 I’ll spin a safety belt or two.
 Hey! Just a minute! It’s time to stop.
 Please let me off at this nice shop.
 Just my luck! I picked someone
 Who doesn’t walk—just runs and runs!

1. Who is the speaker in this poem?

- (A) an older woman
- (B) a dog
- (C) a fly
- (D) a spider

2. What clue tells you about the speaker’s identity?

- (F) tired
- (G) needs to go across the street
- (H) going shopping
- (J) eight feet

3. What additional detail helps you identify the speaker?

- (A) The speaker is small enough to ride on a shoe.
- (B) The speaker is bossy.
- (C) The speaker is determined to go across the street.
- (D) The speaker likes to hitchhike.

4. What can you guess from the last two lines of the poem?

- (F) The speaker spends a lot of money.
- (G) The speaker goes into the store.
- (H) The shoe belongs to another shopper.
- (J) The shoe belongs to a jogger.

READING: READING COMPREHENSION

● Lesson 9: Fact and Opinion

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

It had snowed all night. "Hurray!" said Jeffrey. "No school today! Snowstorms are the greatest!"

"Not only do I have to get to work," said Mom glumly, "but I also have to shovel snow."

Candy barked. She loved to play in the snow. She was as happy as Jeffrey.

A. Which one of these statements is an opinion?

- (A) Mom had to shovel snow.
- (B) It had snowed all night.
- (C) Snowstorms are the greatest.
- (D) The dog was happy.

To help you identify some opinions, look for words like *believe*, *feel*, and *think*.

● Practice

History Lesson

The students looked at the Web site about Thanksgiving. "I think that the Pilgrims were very brave," said Chad.

"When they came to Massachusetts, there were no other settlers from Europe," Keisha said. "I bet they probably felt lonely here."

"Their first year was a difficult one," Mr. Perez added. "Many of the Pilgrims became ill."

"I think I would have wanted to go home!" said Ang. "I would have felt that even boarding the *Mayflower* was a big mistake."

1. What opinion did Keisha express?

- (A) The Pilgrims were the only European settlers in Massachusetts.
- (B) The Pilgrims had a difficult first year.
- (C) The Pilgrims wanted to go home.
- (D) The Pilgrims probably felt lonely.

2. What fact did Keisha state?

- (F) The Pilgrims were the only European settlers in Massachusetts.
- (G) The Pilgrims were brave.
- (H) The Pilgrims made a mistake by boarding the *Mayflower*.
- (J) The Pilgrims had a difficult first year.

3. Which two characters in the story expressed only opinions?

- (A) Chad and Keisha
- (B) Mr. Perez and Keisha
- (C) Chad and Ang
- (D) Ang and Mr. Perez

4. Which character expressed only facts?

- (F) Chad
- (G) Keisha
- (H) Mr. Perez
- (J) Ang

READING: READING COMPREHENSION**● Lesson 10: Story Elements**

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

Sara's heart pounded as she slipped the small, white envelope into the box on Joel's desk. She had not signed the pink heart inside. She looked around carefully, hoping no one had seen her.

A. What is the setting of this story?

- (A) In a classroom on Valentine's Day
- (B) In a classroom on May Day
- (C) In a classroom on Mother's Day
- (D) On a porch on Valentine's Day

Keep in mind that questions about story elements can include characters, settings, plot, and problem.

**● Practice*****The Runner***

Alanna loved to run. She ran to school and she ran home. She ran to the library and to her friends' houses. One day she ran downstairs and said, "I think I'll train for the marathon this summer to raise money for the homeless shelter." She knew that the winner would get a trophy and \$1,000 for the shelter.

Alanna started to train for the marathon. She bought a new pair of running shoes. She ran on the track and on the sidewalks. After a month, her knees started to hurt. The pain got worse, and her mother took Alanna to the doctor. "You have runner's knees," said the doctor. "You have done too much running without warming up. You'll have to do some exercises to strengthen your knees."

Alanna had to slow down for a couple of weeks. As she exercised, her pain decreased. Soon she was able to run again. At the end of August, her friends stood cheering as Alanna broke the tape at the marathon.

1. What word best describes Alanna?

- (A) smart
- (B) athletic
- (C) musical
- (D) stubborn

2. What is the setting at the end of the story?

- (F) Alanna's home
- (G) the doctor's office
- (H) the marathon
- (J) Alanna's school

3. What is the problem in the story?

- (A) Alanna loses the marathon.
- (B) Alanna runs on the sidewalk and ruins her shoes.
- (C) Alanna runs in too many places and hurts her knees.
- (D) Alanna runs without warming up and gets runner's knees.

READING: READING COMPREHENSION

Lesson 11: Fiction

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

By the time the mayor came to judge the snow sculptures, Carlos had finished his. He had made a robot and had used tennis balls for eyes. "This is the most original sculpture I've seen," said the mayor. "Those are great eyes." He handed Carlos a blue ribbon.

A. How do you think Carlos feels at the end of the story?

- (A) scared
- (B) proud
- (C) sad
- (D) angry

Look for key words in the story. Then look for the same key words in the questions. They will help you choose the correct answers.

Practice

The Castle at Yule

Wyn was excited. The Great Hall was almost ready for the Yule feast. Fresh straw had been spread on the stone floor, and the tables were set with bowls, spoons, and cups. Kitchen maids hurried to bring out the food for the first course. Pipers were practicing their best music. Wyn watched as the huge Yule log was rolled into the fireplace. It would burn there for the next twelve days and nights. "Soon the feasting will start," thought Wyn, "and even I, a simple page, will be able to eat my fill. Truly this winter holiday is the best time of the whole year!"

1. This story is mostly about—

- (A) a piper.
- (B) a kitchen maid.
- (C) a page.
- (D) the lord of the castle.

2. What is set on the tables?

- (F) bowls, knives, and forks
- (G) plates, spoons, and cups
- (H) bowls, spoons, and cups
- (J) knives, forks, and spoons

3. How long do you think that Yule lasts?

- (A) one day
- (B) one night
- (C) ten days and nights
- (D) twelve days and nights

4. What opinion does Wyn express?

- (F) The feasting will soon begin.
- (G) Yule is the best time of the year.
- (H) A page will be able to eat his fill.
- (J) The Great Hall was almost ready.

READING: READING COMPREHENSION**● Lesson 12: Fiction**

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

Lynn was invited to a costume party. There was going to be a prize for the funniest costume. Lynn went as a clown. When she got to the party, she looked at what the others were wearing. Lynn said, "I guess a lot of people think a clown's costume is funny!"

A. From this story, what can you guess about the costumes at the party?

- (A) A lot of people had red and white costumes.
- (B) Lynn was the only person dressed as a clown.
- (C) Lynn was not the only person dressed as a clown.
- (D) Most people had worn costumes.

First, answer any easy questions whose answers you are sure that you know.

● Practice***Danny's Day on the Trail***

Today was the day I had been dreading—our class nature hike. My mother could barely drag me out of bed. I hate being outdoors. I'd rather be in my room, zapping alien spaceships. When I'm outside, I always feel clumsy. Plus, I always get poison ivy, even if I'm miles away from the plants!

On the bus, Mr. Evans handed out lists we were supposed to fill in during our nature hike. We were supposed to write down how many animals we spotted and which rocks and leaves we could find. As if the hike itself wasn't bad enough! I lost my canteen right away. It rolled down a cliff and bounced into the river. Then I ripped my T-shirt on a bush that had huge thorns. I did manage to find a couple of the rocks on our list, but only because I tripped

on them. I am sure there wasn't a single animal anywhere on the trail. Of course, I did fall down a lot, so maybe I scared them all away.

By the time we got back to the bus, I was hot, dirty, and tired. I was so glad to get back home that I nearly hugged my computer. But by bedtime, it was clear that somehow, I had gotten poison ivy again. I was covered with it!

READING: READING COMPREHENSION

● Lesson 12: Fiction (cont.)

Answer the questions about the passage on page 24.

1. What word best describes Danny’s day?

- (A) enjoyable
- (B) scary
- (C) unhappy
- (D) interesting

2. What happened to Danny’s canteen on the hike?

- (F) It broke on a rock on the trail.
- (G) It rolled down a cliff and got lost in the woods.
- (H) It rolled down a cliff and got lost in the river.
- (J) It got left behind because Danny forgot it.

3. What do you think is Danny’s hobby?

- (A) playing computer games
- (B) bird watching
- (C) sleeping
- (D) hiking

4. Which of these is an opinion?

- (F) Mr. Evans handed out lists we were supposed to fill in.
- (G) I fell down a lot.
- (H) It’s so much more interesting playing computer games.
- (J) I had gotten poison ivy again.

5. Choose the correct order of the settings for this story.

- (A) the bus, the nature trail, the bus, Danny’s home
- (B) Danny’s home, the nature trail, the bus
- (C) the bus, the nature trail, the bus, Danny’s classroom, Danny’s home
- (D) Danny’s home, the bus, the nature trail, the bus, Danny’s home

6. The boxes show some things that happened in the story. Which of these belongs in Box 2?

Danny gets a list on the bus.	Box 2	Danny gets back on the bus.
-------------------------------	-------	-----------------------------

- (F) Danny doesn’t want to get out of bed.
- (G) Danny rips his T-shirt on a thorn.
- (H) Danny finds out he has poison ivy.
- (J) Danny nearly hugs his computer.

7. Why do you think the author has Danny talk about all his problems on the trail?

- (A) to make him seem brave
- (B) to add humor to the story
- (C) to show how much he loves hiking
- (D) to show that he talked too much

READING: READING COMPREHENSION**● Lesson 13: Fiction**

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

One night in the woods, I saw a bright, white spaceship under some trees. I was scared, but I tried to be brave. I was afraid the aliens might take me away to their planet. Suddenly, the spaceship opened and my friend Paula got out. The spaceship was not a ship at all. It was just her family's camper.

A. What surprise does the author reveal at the end?

- (A) The aliens fly away again.
- (B) The spaceship is really a camper.
- (C) The speaker is just having a dream.
- (D) Paula is an alien.

Stay with your first choice for an answer. Change it only if you are sure that another answer is better.

● Practice**The Contest**

Tat and Lin loved to enter contests. It did not matter what the prize was. Once they wrote a poem for a magazine contest. They won a free copy of the magazine. Another time they guessed how many marbles were in a glass jar. They got to take all the marbles home with them.

One morning Tat was reading the Crunchy Munchies cereal box as he ate his breakfast. "Lin," he said, "here's another contest! The first-place winner gets a bike. Second prize is a tent."

"Those are great prizes," said Lin. "How do we enter?" The box said that the boys had to fill out a box top with their names and address. The more box tops they filled out, the better their chances for winning the drawing. Tat and Lin started eating Crunchy Munchies every morning. They also asked everyone they knew for cereal box tops.

By the end of four weeks, Tat and Lin had sixteen box tops to send in for the drawing. "I'm glad that's over," said Tat. "If I had to look at another box of that stuff, I don't know what I'd do."

A few weeks passed. One day, the boys got a letter in the mail. "Hooray! We've won third prize in the Crunchy Munchies contest!" Lin exclaimed. "I didn't even know there was a third prize."

Tat took the letter and started to read. His smile disappeared. "Oh, no!" he cried. "Third prize is a year's supply of Crunchy Munchies!"

READING: READING COMPREHENSION**● Lesson 13: Fiction (cont.)**

Answer the questions about the story on page 26.

1. What is this story about?

- (A) two teachers who love cereal
- (B) two cereal makers who love contests
- (C) a pair of sisters who play marbles
- (D) a pair of brothers who love contests

2. How do the boys find out about the Crunchy Munchies contest?

- (F) from a letter in the mail
- (G) from the back of a cereal box
- (H) from their mother
- (J) from their teacher

3. Why do you think that the boys did not try to find out about the third prize before they entered the contest?

- (A) because the third prize was added later
- (B) because they thought they would win first prize
- (C) because they forgot to write and find out
- (D) because the prizes in contests didn't really matter to them

4. Which of these statements is a fact from the story?

- (F) Tat and Lin seem to dislike each other.
- (G) Entering contests is a hobby for Tat and Lin.
- (H) Tat and Lin will probably do anything to win first prize.
- (J) Tat and Lin want the tent so they can go camping.

5. What is the problem in this story?

- (A) Tat and Lin can't figure out how to enter the contest.
- (B) Tat and Lin eat so much cereal they can't stand it anymore.
- (C) Tat and Lin don't collect enough box tops to win.
- (D) Tat and Lin argue about who will get the prize.

6. How many cereal box tops did Tat and Lin send in?

- (F) sixteen
- (G) six
- (H) ten
- (J) seventeen

7. What do you think Crunchy Munchies is like?

- (A) smooth like pudding
- (B) crisp and sweet
- (C) cooked cereal like oatmeal
- (D) salty like crackers

8. The next thing that Tat and Lin might do is—

- (F) find someone to whom they can give the cereal.
- (G) enter another Crunchy Munchies contest.
- (H) give up contests altogether.
- (J) have a fight over who gets the cereal.

READING: READING COMPREHENSION

● Lesson 14: Nonfiction

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

The light from a star has to pass through air in order for people to see the star. Air is all around the earth. As starlight travels through the air, the air moves and changes. So the starlight bends, and the star is said to twinkle.

A. What makes a star seem to twinkle?

- (A) air passing through a star
- (B) starlight bending as the air moves
- (C) starlight circling the star
- (D) people looking at the star

Read the passage carefully and make sure you understand the facts. Then skim the article again as you answer each question.

● Practice

A Busy Morning

The finches are the first to arrive at the feeder. They chirp and take turns eating the seeds. Later, the doves join them. The doves almost never eat at feeders. Instead, they like to peck the seeds that have fallen to the ground. After they have eaten, they sometimes settle down near a plant in the garden to rest. Another bird that eats on the ground is the junco. Juncos usually arrive in flocks of about ten. They are shy birds and fly away at the first sound or movement of a person in the yard. The sparrows fly to and from the feeder all morning long. They are lively birds that chirp, hop, chase each other, and go from the feeder to their home in the hedge and back again.

1. Another title that shows the main idea of this passage is—

- (A) "My Favorite Bird."
- (B) "Juncos and Doves."
- (C) "Backyard Birds."
- (D) "Sparrows in the Hedge."

2. Which birds like to eat on the ground?

- (F) finches and doves
- (G) doves and sparrows
- (H) juncos and doves
- (J) finches and sparrows

3. Which type of bird probably stays on the ground the longest?

- (A) finch
- (B) dove
- (C) junco
- (D) sparrow

4. Which statement is a fact from the passage?

- (F) Juncos are the most beautiful birds in the backyard.
- (G) Juncos eat seeds on the ground, not in the feeder.
- (H) Juncos usually arrive in flocks of about twenty.
- (J) Juncos seem greedy about food compared to other birds.

READING: READING COMPREHENSION

Lesson 15: Nonfiction

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

Jellyfish come in all sizes and colors. Some are only one inch across. Other jellyfish are five feet wide. Some are orange. Others are red. Some jellyfish have no color at all. Gently poke one type of jellyfish with a stick and it will glow. But don't let any jellyfish touch you, because they can sting!

A. The main idea of this passage is—

- (A) jellyfish can sting.
- (B) some jellyfish are orange.
- (C) there are many kinds of jellyfish.
- (D) jellyfish can hide.

Look for key words in the story and the questions to help you choose the right answers.

Practice

Therapy Dogs

Therapy dogs can help patients get better after illnesses. The dogs' owners bring them into hospital rooms and let patients meet the animals. Dogs sometimes go right up to patients' beds. People in the hospital rooms can pet the dogs, brush them, and talk to them. Studies have shown that being with dogs and other animals is *therapeutic*. It can lower stress, lower blood pressure, and help people heal faster.

Not every dog is a good choice for this important job. To be a therapy dog, a dog must have a calm, friendly *disposition*. Some therapy dog owners feel that their pets were born to help sick people get well again.

1. What is the main idea of this passage?

- (A) Therapy dogs like to be brushed.
- (B) Therapy dogs are calm and friendly.
- (C) Therapy dogs help patients get better after illnesses.
- (D) Therapy dogs were born to visit hospitals.

2. The word *disposition* means—

- (F) work history.
- (G) personality.
- (H) intelligence.
- (J) breed.

3. Which words help you figure out the meaning of *therapeutic*?

- (A) "sometimes go right up to patients' beds"
- (B) "lower stress, lower blood pressure, and help people heal faster"
- (C) "a calm, friendly disposition"

READING: READING COMPREHENSION**● Lesson 16: Nonfiction**

Directions: Read each passage. Choose the answer you believe is correct for each question.

Example

Japan is very mountainous. Level areas for farming are few. Japan can farm only about 15 percent of its land. But Japan raises almost three-fourths of the food it needs to feed its people. Farmers combine up-to-date farming methods with improved seeds to make the best use of the land.

A. How much of its land can Japan farm?

- (A) 10 percent
- (B) 15 percent
- (C) two-thirds
- (D) three-fourths

If you aren't sure of an answer, first decide which choices you know are wrong. Then skim the passage again to help you decide which remaining choice is the correct answer.

● Practice***Making Clay Move***

Beginning in about 1990, *claymation* became very popular. *Animators* have used this clay animation to make several famous movies and TV commercials. However, claymation is not a new idea. In 1897, a claylike material called *plasticine* was invented. *Moviemakers* used plasticine to create clay animation films as early as 1908. Animators could use the plasticine models for scenes that could not be filmed in real life.

Here's how claymation works. First, an artist makes one or more clay models. *Moviemakers* pose each model, take a picture, and then stop. Next, they move the model a tiny bit to a slightly different pose. Then they take another picture. They continue the pattern of taking pictures, moving the model, and taking pictures again. It can take hundreds of pictures to make a few seconds of film. The idea of moving models and using stop-action photography

came from a French animator named George Melier. He had once had a job as a magician and called his work "trick film."

Today's animators use different kinds of clay. They can also use computers to speed up the claymation process. But the basic idea of clay animation has not changed in over a hundred years!

READING: READING COMPREHENSION**● Lesson 16: Nonfiction (cont.)**

Answer the questions about the passage on page 30.

1. This story is mostly about—

- (A) the history of claymation films.
- (B) George Melier, a French magician.
- (C) making models out of plasticine.
- (D) today's animators and how they work.

2. When was the first claymation movie made?

- (F) 1990
- (G) 1908
- (H) 1897
- (J) 1920

3. What do you think “stop-action photography” is?

- (A) making everyone stop while a photo is taken
- (B) moving a model, taking the picture, then moving the model again
- (C) using magic tricks to make the camera work
- (D) a camera that stops after the picture is taken

4. Which of these choices is a fact?

- (F) Claymation movies are funnier than live-action movies.
- (G) Claymation movies are more interesting than other movies.
- (H) Claymation movies weren't very good until the 1990s.
- (J) Claymation movies were first made in 1908.

5. What is an animator?

- (A) someone who works with actors
- (B) someone who makes clay sculptures
- (C) someone who invents clay materials
- (D) someone who makes animated films

6. Who was George Melier?

- (F) a filmmaker who became a magician
- (G) a magician who became an animator
- (H) a clay-model maker who liked to play tricks
- (J) the inventor of plasticine

7. Which two words are used to make the word claymation?

- (A) clay and movement
- (B) clay and maker
- (C) clay and animation
- (D) clay and photography

8. The author wrote this passage to—

- (F) entertain readers with funny stories of filmmaking.
- (G) inform readers about the claymation process.
- (H) make readers want to rent specific videotapes.
- (J) tell the history of plasticine.

READING: READING COMPREHENSION**SAMPLE TEST**

● **Directions:** Read each item. Choose the answer you believe is correct for each question.

Example

When it stopped raining, Keisha began walking home. Soon she came to a big puddle in the middle of the sidewalk. Keisha ran toward the puddle and jumped high in the air. After she landed, Keisha said, “Oh! I guess I should have walked around that puddle!”

A. Why did Keisha think she should have walked around the puddle?

- (A) because she didn't have boots
- (B) because the puddle water splashed on her
- (C) because it was still raining
- (D) because she loved puddles

For numbers 1–8, read the passage. Choose the answer you believe is correct for each question.

Wendy Lost and Found

Wendy was scared. For the second time in her young life, she was lost. When the branch fell on her small house and the fence, she had barely escaped. She leaped across the fallen fence into the woods. Now the rain poured down and the wind howled. The little woodchuck shivered under a big oak tree. She did not know what to do.

When Wendy was a baby, her mother had died. She had been alone in the woods then, too. She could not find enough food. Then she hurt her paw. All day she scratched at a small hole in the ground, trying to make a burrow. Every night, she was hungry.

One day, Rita had found her. Rita had knelt down by Wendy's shallow burrow and set down an apple. Wendy limped slowly out and took the apple. It was the best thing she had ever tasted. Rita took the baby woodchuck to the wildlife center, and Wendy had lived there ever since. Most of the animals at the center were orphans. Rita taught them how to live in the wild, and then let them go when they were ready. But Wendy's

paw did not heal well, and Rita knew that Wendy would never be able to go back to the wild. So Rita had made Wendy a house and a pen. Wendy even had a job—she visited schools with Rita so that students could learn all about woodchucks.

Now the storm had ruined Wendy's house. She did not know how to find Rita. At dawn, the rain ended. Wendy limped down to a big stream and sniffed the air. Maybe the center was across the stream. Wendy jumped onto a rock and then hopped to another one. She landed on her bad paw and fell into the fast-moving water. The little woodchuck struggled to keep her nose above water. The current tossed her against a tangle of branches. Wendy held on with all her might.

“There she is!” Wendy heard Rita's voice. Rita and Ben, another worker from the wildlife center, were across the stream. Rita waded out to the branches, lifted Wendy up, and wrapped her in a blanket. Wendy purred her thanks. By the time Ben and Rita got into the van to go back to the center, Wendy was fast asleep.

GO ON

READING: READING COMPREHENSION**SAMPLE TEST (cont.)**

Answer the questions about the story on page 32.

1. **This story is mostly about—**
 - (A) a wildlife center worker.
 - (B) a woodchuck who lives at a wildlife center.
 - (C) a woodchuck who can do tricks.
 - (D) a woodchuck who learns how to swim.

2. **How does the story start?**
 - (F) with Wendy's life as a baby
 - (G) in the middle of the storm
 - (H) with Wendy's visit to school
 - (J) when Wendy is in the stream

3. **Why do you think the author wrote about Wendy's life as a baby?**
 - (A) so the reader knows that Wendy has been lost before and knows what to do
 - (B) so the reader knows that Wendy can't live in the wild and is in danger
 - (C) so the reader knows that Wendy trusts people and will be all right
 - (D) so the reader knows that Wendy can find apples to eat

4. **Which answer is a fact about woodchucks from the story?**
 - (F) Wendy loves apples.
 - (G) Woodchucks dig burrows.
 - (H) Woodchucks can climb tall fences.
 - (J) Wendy limps because of her hurt paw.

5. **What is the problem in the story "Wendy Lost and Found"?**
 - (A) Wendy hurt her paw.
 - (B) Wendy got lost as a baby.
 - (C) Wendy gets lost during a big storm.
 - (D) Wendy does not trust Ben.

6. **What are the settings for this story?**
 - (F) the woods and the wildlife center
 - (G) the school and the stream
 - (H) the school and the woods
 - (J) the wildlife center and Rita's house

7. **What is Rita's job?**
 - (A) saving woodchucks from streams
 - (B) teaching science at a school
 - (C) gathering apples
 - (D) working at the wildlife center with animals

8. **What is the climax of the story?**
 - (F) when Wendy's mother dies
 - (G) when Rita gives Wendy an apple
 - (H) when Wendy falls into the stream
 - (J) when Rita wraps Wendy in a blanket

READING: READING COMPREHENSION**SAMPLE TEST (cont.)**

● **Directions:** Read each item. Choose the answer you believe is correct for each question.

Example

The Mayan people of Mexico and Central America played an early form of basketball. Their “hoop” was made of stone. The opening was set at a right angle to the ground, like a window in a house. This opening was much higher than today’s basketball hoops.

B. What was one difference between the Mayan basketball game and ours?

- (A) The Mayan court was much longer.
- (B) The game lasted a shorter time.
- (C) The hoop was made of stone instead of metal.
- (D) The game was played inside a house.

For numbers 9–15, read the passage. Choose the answer you believe is correct for each question.

The Forgotten Flyer

In 1908, Jacqueline Cochran was born to a poor family in Pensacola, Florida. Like many girls at the time, she went to work at an early age. When she was just eight years old, Jacqueline started work in a cotton mill. As she worked on the looms, making cloth, she dreamed about becoming an aviator. She wanted to fly one of the airplanes that had been recently invented.

Jacqueline got her wish in the 1930s. She became a pilot at a time when airplanes were being avoided by most people. Only a handful of daring young men flew these new planes, and there were very few women aviators. That did not stop Jacqueline. She took flying lessons and began to enter famous races. In 1938, she won first prize in a contest to fly across the United States.

At the beginning of World War II, Jacqueline trained women in England as pilots. She later came back to the United States and trained American women, too. In 1945, she was awarded the Distinguished Service Medal, one of America’s highest honors.

When jet planes were invented, Jacqueline learned to fly them, too. Soon, she was the first woman to fly faster than the speed of sound. Jacqueline also set many other records in the field of aviation, including flying higher than anyone had before her.

In many ways, Jacqueline Cochran is forgotten today. But this woman pilot should be remembered. She was a pioneer in a new technology. She helped to make air travel one of our most important means of transportation.

A right-pointing arrow with the words "GO ON" written inside it.

READING: READING COMPREHENSION

SAMPLE TEST (cont.)

Answer the questions about the passage on page 34.

9. This story is mostly about—

- (A) a brave pioneer in the field of air travel.
- (B) a weaver who becomes a teacher.
- (C) a soldier who wins the Distinguished Service Medal.
- (D) a founder of an important mill business.

10. What is an aviator?

- (F) a weaver
- (G) a woman
- (H) a pilot
- (J) a teacher

11. This story suggests that—

- (A) jet planes were invented in about 1908.
- (B) Jacqueline Cochran founded an airline.
- (C) many people were flying by 1930.
- (D) early airplanes were dangerous to fly.

12. Which of the following choices is an opinion?

- (F) Jacqueline Cochran is probably the greatest of women aviators.
- (G) Jacqueline Cochran won the Distinguished Service Medal.
- (H) Jacqueline Cochran was born in 1908.
- (J) Jacqueline Cochran learned how to fly jet planes.

13. The boxes show events in the story. Which of these belong in Box 2?

Jacqueline wins first prize in a contest to fly across the United States.	Box 2	Jacqueline flies faster than the speed of sound.
---	-------	--

- (A) Jacqueline trains women pilots during World War II.
- (B) Jacqueline works in a cotton mill.
- (C) Jacqueline flies higher than anyone before her.
- (D) Jacqueline starts flying lessons.

14. Why did the author title the story “The Forgotten Flyer”?

- (F) because Jacqueline Cochran forgot about her efforts
- (G) because Jacqueline Cochran is not well known today
- (H) because Jacqueline Cochran never won a medal
- (J) because Jacqueline Cochran never set a record

15. Cotton is a kind of a fabric. Another fabric is—

- (A) paper.
- (B) honeycomb.
- (C) silk.
- (D) oak.

READING PRACTICE TEST

● Part 1: Vocabulary

Directions: Read each item. Choose the answer that means the same or the opposite of the underlined word.

Examples

A. Dangerous bridge

- (A) careful
- (B) unsafe
- (C) unpainted
- (D) deep

B. She passed an important test.

- (F) major
- (G) bad
- (H) general
- (J) emergency

For numbers 1–5, read each item. Choose the answer that means the same or about the same as the underlined word.

1. Fearless dog

- (A) careless
- (B) energetic
- (C) unafraid
- (D) sincere

2. Solar energy

- (F) sun-powered
- (G) sunburn
- (H) sometimes
- (J) powerful

3. Ancient castle

- (A) strong
- (B) bridge
- (C) stone
- (D) old

4. The train had only one passenger.

- (F) ticket
- (G) car
- (H) rider
- (J) conductor

5. He started on his trip .

- (A) holiday
- (B) class
- (C) journey
- (D) future

For numbers 6–8, read each item. Choose the answer that means the opposite of the underlined word.

6. He decided to continue.

- (F) stop
- (G) go on
- (H) roost
- (J) sleep

7. She was a mighty warrior.

- (A) great
- (B) strong
- (C) famous
- (D) weak

8. The doctor comforted his patient.

- (F) bothered
- (G) cheered
- (H) recognized
- (J) calmed

READING PRACTICE TEST**Part 1: Vocabulary (cont.)**

For numbers 9–13, read the two sentences. Then choose the word that fits in the blank in both sentences.

9. Everyone in the class was _____. She picked out a nice birthday _____.
- (A) quiet
(B) present
(C) comfortable
(D) gift
10. I did not shed a _____ over my lost paper. Mom will mend the _____ in my jacket.
- (F) tear
(G) thread
(H) break
(J) banner
11. Dad broke a marathon _____ in the race. I want to _____ my thoughts in a diary.
- (A) note
(B) record
(C) write
(D) tape
12. The _____ was worth one point. The _____ of the class is to learn about Native Americans.
- (F) note
(G) purpose
(H) touchdown
(J) goal

13. Everyone's _____ on the field trip was great. She wants to _____ the orchestra.
- (A) job
(B) position
(C) conduct
(D) tape

For numbers 14–16, find the answer in which the underlined word is used in the same way as in the box.

14. The **field** is planted with corn.
- (F) The field of technology is always changing.
(G) We can see deer in the field by our house.
(H) Her field is nursing.
(J) Our field trip is next Thursday.
15. The **general** idea was to weave a basket.
- (A) She is a general in the army.
(B) The soldiers followed their general into battle.
(C) I think that the general had the best idea.
(D) No general study of history can cover everything.
16. She wants the same **type** of coat.
- (F) Akiko can type very fast.
(G) Let me type up this report.
(H) I like this type of cereal the best.
(J) He has to type in new data all the time.

READING PRACTICE TEST**Part 1: Vocabulary (cont.)**

For numbers 17–22, choose the answer that fits best in the blank.

17. The _____ waiter dropped the tray.

- (A) careless
- (B) dull
- (C) living
- (D) complete

18. Brave _____ circled the globe.

- (F) dogs
- (G) travelers
- (H) trains
- (J) honors

19. The wild _____ escaped from the net.

- (A) pupil
- (B) driver
- (C) beast
- (D) spider

20. Our field trip to the _____ was interesting.

- (F) backyard
- (G) upstairs
- (H) traffic
- (J) museum

21. The _____ crowed at dawn.

- (A) lion
- (B) giraffe
- (C) rooster
- (D) sparrow

22. We squeezed down a _____ hallway.

- (F) wooden
- (G) narrow
- (H) foolish
- (J) prize

For numbers 23–25, find the word that means the same thing as the underlined word.

23. The dinner was excellent.
Excellent means—

- (A) very good
- (B) above
- (C) higher
- (D) unpleasant

24. No one could capture the wild tiger.
Capture means—

- (F) range
- (G) hunt
- (H) catch
- (J) release

25. We need his pitching skill on our team. Skill means—

- (A) toss
- (B) curve
- (C) dance
- (D) talent

READING PRACTICE TEST**● Part 2: Reading Comprehension****Directions:** Read the passage. Choose the answer you believe is correct for each question.**Example**

Elsie had to walk more than a mile to school, and she was only halfway there. Her boots were wet. The shawl that her mother had wrapped over her patched coat was not keeping Elsie warm.

A. What kind of day is described in this passage?

- (A) sunny and warm
- (B) dry and hot
- (C) rainy and cold
- (D) cold and dry

For numbers 1–3, read the passage. Choose the answer you believe is correct for each question.

The Surprise

Tracy had a cocoon in a jar that she kept in the garage. She had found the cocoon on a bush. Tracy decided to take her cocoon to school. After all, the class had a white rat, a turtle, and three goldfish. Now they could have a butterfly, too! Tracy knew Ms. Carr would not mind an addition to the class.

“Are you sure that a butterfly will come out of this cocoon, Tracy?” asked Ms. Carr when Tracy showed her the jar.

“Oh, yes, I’m sure,” Tracy answered. “And I think it will hatch any day now.”

Two days later, Tracy was the first student in the classroom. She ran to the jar. Inside was a large, gray insect with a thick, furry body. “What is it?” Tracy asked, wrinkling her nose.

Ms. Carr smiled. “It’s a moth,” she said. “See how its wings are open while it’s resting. Let’s take this moth outside and watch it try its wings!”

1. This story is mostly about—

- (A) a girl who wants to raise turtles.
- (B) a girl who is surprised when a cocoon hatches into a moth.
- (C) a teacher who likes moths.
- (D) a teacher who is disappointed to see a moth in a jar.

2. This story suggests that—

- (F) both butterflies and moths hatch from cocoons.
- (G) butterflies are difficult to raise.
- (H) all children like animals and insects.
- (J) teachers should not have animals in classrooms.

3. Which of these statements is a fact from the story?

- (A) Ms. Carr is a substitute teacher.
- (B) Ms. Carr seems uninterested in her students.
- (C) Ms. Carr is an animal lover.
- (D) Ms. Carr must not like moths.

READING PRACTICE TEST**Part 2: Reading Comprehension (cont.)**

For numbers 4–7, read the passage. Choose the answer you believe is correct for each question.

Birthday Party Blues

My birthday party was supposed to be outside, so of course it was raining. All of my guests were soaking wet. My presents were soaking wet, too. I had planned some games, but my friends were acting strangely. They kept whispering to each other all through the party games.

When it was time to open my presents, it turned out that all seven of my friends had bought me the same gift! How many copies of *Map Zap* software does one person need? It was hard to keep saying “thank you” and sound grateful each time. My friends seemed to think that the whole thing was really funny. They could not stop snickering.

Then it was time to open my present from my parents. Mom handed me a gift, and I ripped off the paper. *Map Zap* again! But Mom grinned and said, “Look inside, Darcy.” Inside the box was a photograph of a puppy sitting in front of a pile of gifts. Underneath the picture, it said, “I’m waiting in the garage.” I raced outside in the rain to the garage door. There was my new puppy, Snoopy, and the real gifts my friends had bought me. What a great party!

4. What is the main idea of this story?
- (F) a birthday party that seems to go badly
 - (G) a little dog who goes to a birthday party
 - (H) a joke played by Darcy on her friends
 - (J) a party takes place inside because of rain
5. What is *Map Zap*?
- (A) a history book
 - (B) computer software
 - (C) a book about maps
 - (D) a board game
6. Why do you think Darcy’s friends were whispering during the games?
- (F) because the games were strange
 - (G) because they were winning all the prizes
 - (H) because they were all going to play a joke on Darcy
 - (J) because they liked talking
7. Which of the following is an opinion?
- (A) Darcy received a puppy as a gift.
 - (B) This had to be Darcy’s best birthday ever.
 - (C) Darcy got eight copies of *Map Zap*.
 - (D) Darcy’s party was supposed to be outside.

READING PRACTICE TEST**Part 2: Reading Comprehension (cont.)**

For numbers 8–13, read the passage. Choose the answer you believe is correct for each question.

Up, Up, and Away

Jamal climbed into the basket on that cold morning, and he shivered. The basket tipped from side to side, and he gasped. While Dad was climbing into the basket, the pilot twisted something and fire shot up into the air. Jamal jumped.

“It’s all right,” said the pilot. “I’m doing this to heat the air in the balloon.” Jamal tipped back his head. High above him was the opening of the huge, bright balloon. He looked over the edge of the basket. The basket was tied with ropes to keep it close to the ground. But suddenly, it started to rock and rise up.

“Here we go!” said Dad, and smiled happily at Jamal.

Jamal bit his lip. “I’m not sure I am going to like this,” he said.

People on the ground untied the ropes, and the balloon with its basket of passengers kept rising up into the air. It wasn’t like taking

off in an airplane. Instead, the balloon was floating up gently into the morning sky.

Soon Jamal, Dad, and the pilot could see far across the trees. “Look, there’s the lake!” said Dad. Jamal saw a blue patch on the ground. Big Lake was suddenly tiny! The trees looked like green cotton balls. The fields looked like pieces of a quilt.

As the balloon floated on, Jamal felt less and less afraid. He started pointing at things, too. “Look, Dad, there’s my school! And there’s our house!” Jamal could see his treehouse in the backyard, and the shed where he kept his bicycle. The whole house and yard looked smaller than one of his thumbnails. Then Jamal looked ahead into the blue sky. The sun was starting to shine. It was the perfect day to fly in a hot-air balloon.

READING PRACTICE TEST**Part 2: Reading Comprehension (cont.)**

Answer the questions about the passage on page 42.

8. This story is mostly about—

- (F) a boy who sees his school from the air.
- (G) a boy and his father who learn about flight.
- (H) a boy and his father who fly in a hot-air balloon.
- (J) a boy and his father who learn how to fly.

9. Jamal's house and yard look smaller than—

- (A) the lake.
- (B) the balloon.
- (C) the trees.
- (D) his thumbnail.

10. How can you tell Jamal is nervous at first?

- (F) He climbs into the basket and looks at the ground.
- (G) He gasps, jumps, and bites his lip.
- (H) He smiles at his father.
- (J) He sees his school and his house.

11. Which of these statements is an opinion?

- (A) "I'm doing this to heat the air in the balloon."
- (B) "Here we go!"
- (C) "I'm not sure I am going to like this."
- (D) "Look, there's the lake!"

12. Choose a word to best describe Dad's feeling about the balloon ride.

- (F) worried
- (G) quiet
- (H) excited
- (J) interested

13. Choose another title for this passage.

- (A) "My House and Yard"
- (B) "Hot-Air Balloon History"
- (C) "Jamal's Balloon Ride"
- (D) "Fast Flying"

READING PRACTICE TEST**Part 2: Reading Comprehension (cont.)**

For numbers 14–19, read the passage. Choose the answer you believe is correct for each question.

Johnny Appleseed

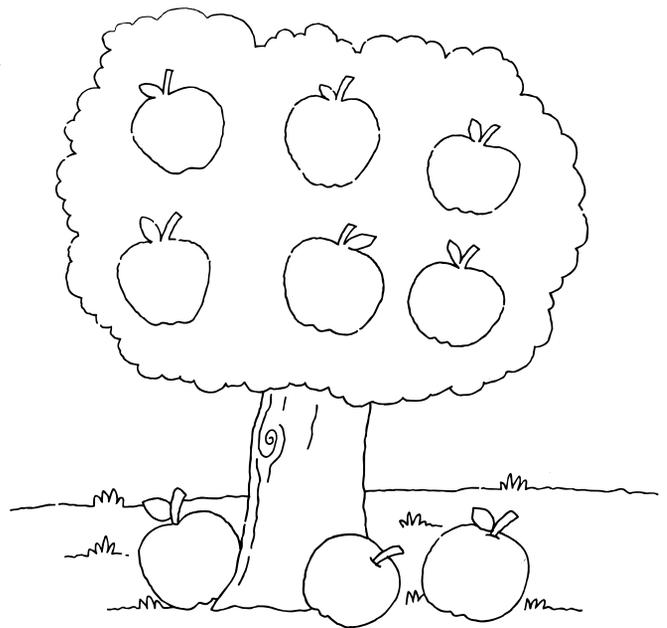

There are many tall tales about the life of Johnny Appleseed. But the facts may surprise you!

There was a real Johnny Appleseed. His name was John Chapman. He grew up with his nine brothers and sisters in Longmeadow, Massachusetts. John always loved trees and wild animals. When he was 23 years old, John began walking west, carrying only a gun, hatchet, and knapsack. He walked over 300 miles. Sometimes he wore shoes, but sometimes he walked barefoot.

As he passed the cider mills in eastern Pennsylvania, John asked if he could have some of the mill's apple seeds. Then he found a piece of empty land and planted the seeds. He did this several times in Ohio and Indiana, too. When the seeds grew into *saplings*, John went back to dig up the young trees. Then he sold them to pioneers who were starting farms. These settlers wanted apples to make apple butter, cider, and vinegar. John gave away saplings for free to people who wanted the trees but were too poor to pay for them.

As John walked from place to place, he brought not only trees, but news, stories, and books. When he stayed with a family, he would read to them and then lend them books.

John lived until the age of 71. By the time he died, he left behind 15,000 apple trees and over 2,000 saplings for pioneer families to enjoy.

GO ON 

READING PRACTICE TEST**Part 2: Reading Comprehension (cont.)**

Answer the questions about the passage on page 44.

14. Another title that shows the main idea of this passage is—
- (F) “John Chapman, Hiker.”
 - (G) “The Man Who Walked Across America.”
 - (H) “How Apple Trees Went East.”
 - (J) “John Chapman, The Apple-Tree Man.”
15. How many apple trees did John Chapman leave behind?
- (A) 300
 - (B) 2,000
 - (C) 15,000
 - (D) 50,000
16. Why do you think that John Chapman grew trees?
- (F) because he loved trees and could also earn a living growing them
 - (G) because he wanted to eat apples all the time
 - (H) because he wanted to make a lot of money
 - (J) because he wanted to create more forests
17. Choose a correct fact from the passage.
- (A) John Chapman planted trees all over America.
 - (B) John Chapman brought apple trees to Pennsylvania, Ohio, and Indiana.
 - (C) John Chapman planted over 100,000 trees in his lifetime.
 - (D) John Chapman was not able to read.
18. Which of these does this story lead you to believe?
- (F) John Chapman played a big part in helping pioneer families.
 - (G) John Chapman probably did not like books very much.
 - (H) John Chapman died a very rich man.
 - (J) John Chapman was an unhappy person.
19. What is the meaning of the word *sapling*?
- (A) maple syrup
 - (B) tree sap
 - (C) a type of seed
 - (D) a young tree

READING PRACTICE TEST**Part 2: Reading Comprehension (cont.)**

For numbers 20–23, read the passage. Choose the answer you believe is correct for each question.

Sign Language

Sign language is used by people who are not able to hear or speak well. They use their hands instead of their voices to talk. Their hand signals may be different letters, words, or whole ideas.

Sign language is used by other people, too. Have you ever watched a football or basketball game? The referees use hand signals to let people know what has happened in the game. Signs can mean “foul,” “time out,” or can let players know when a play was good.

Guess who else uses sign language? You do! You wave your hand for *hello* and *goodbye*. You nod your head up and down to say *yes* and back and forth to say *no*. You point to show which way to go. Sign language is used by people everywhere as another way of talking.

20. What is the main idea of this passage?

- (F) Sign language is used by people who cannot hear well.
- (G) Sign language is important to many sports.
- (H) Sign language is not used in all countries.
- (J) Sign language is used by people everywhere.

21. Which are examples of sign language?

- (A) calling out the name of your friend
- (B) singing a song
- (C) waving *hello* or *goodbye*
- (D) talking on the telephone

22. Which one is another example of sign language?

- (F) rocking a baby to sleep
- (G) raising your hand in class
- (H) running down the sidewalk to school
- (J) jumping rope

23. Which one is an opinion?

- (A) Sign language is used as another way of talking.
- (B) Sign language is very interesting.
- (C) Sign language is used in sports.
- (D) Sign language is done with hand signals.

LANGUAGE: LANGUAGE MECHANICS

● Lesson 1: Capitalization

Examples

For A and numbers 1–3, choose the answer that shows a capital letter that is missing. If no capital letters are missing, choose the answer “None.”

- A.**
- (A) The snow
 - (B) started to fall
 - (C) in December.
 - (D) None

For B and numbers 4–5, choose the answer that shows the correct capitalization.

- B.** My last teacher was _____.
- (F) ms. smith
 - (G) Ms. smith
 - (H) Ms. Smith
 - (J) ms. Smith

Remember that sentences and proper nouns start with capital letters.

● Practice

- 1.
- (A) she went
 - (B) to the basement
 - (C) to get the laundry.
 - (D) None

- 2.
- (F) My favorite
 - (G) book is
 - (H) *charlotte's Web*.
 - (J) None

- 3.
- (A) My family
 - (B) went on a trip
 - (C) to ohio.
 - (D) None

4. Did you go to the game on _____?
- (F) saturday afternoon
 - (G) Saturday afternoon
 - (H) Saturday Afternoon
 - (J) saturday Afternoon

5. Angela is my _____.
- (A) favorite cousin
 - (B) Favorite cousin
 - (C) favorite Cousin
 - (D) Favorite Cousin

LANGUAGE: LANGUAGE MECHANICS

● Lesson 2: Punctuation

Examples

For A and numbers 1–3, choose the answer that shows the correct punctuation mark. If no punctuation marks are missing, choose the answer “None.”

A. How many people were at the party?

- (A) .
- (B) ,
- (C) !
- (D) None

For B and numbers 4–5, choose the answer that shows the correct punctuation.

B. The cake _____ in the oven.

- (F) wasn't
- (G) wasn't'
- (H) wasnt
- (J) was'nt

First, check to see if the punctuation is missing at the end of the sentence. Next, look for missing punctuation marks inside the sentence.

● Practice

1. Look out

- (A) .
- (B) ,
- (C) !
- (D) None

2. Mr Jefferson was mowing his lawn.

- (F) .
- (G) ?
- (H) !
- (J) None

3. Did you get a good grade in math

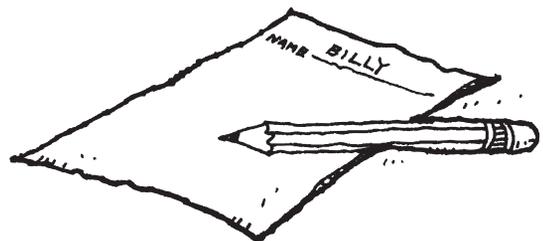

- (A) .
- (B) ?
- (C) !
- (D) None

4. The queen _____ wave to the crowd.

- (F) didnt
- (G) didn't'
- (H) didn't
- (J) did'nt

5. _____ starting to rain!

- (A) lts
- (B) l'ts
- (C) It's
- (D) lts'

LANGUAGE: LANGUAGE MECHANICS

● Lesson 3: Capitalization and Punctuation

Examples

For A, B, and numbers 1–2, choose the answer that shows the correct punctuation and capitalization. Choose “Correct as it is” if the underlined part of the sentence is correct.

- A.**
- (A) Where did you go on your vacation.
 - (B) We went to california.
 - (C) Did you like it.
 - (D) Yes, it was sunny and beautiful.

- B. Making soup isnt hard.**
- (F) isnt’
 - (G) is’nt
 - (H) isn’t
 - (J) Correct as it is

First, check the capitalization in the sentence. Then look for punctuation errors. Choose the answer that has both correct capitalization and punctuation.

● Practice

1.
 - (A) What is your favorite city
 - (B) I like San francisco.
 - (C) It’s in California.
 - (D) It’s where you can find the golden gate Bridge.
2.
 - (F) Nobody answered the door
 - (G) knock on the back door.
 - (H) Oh, no!
 - (J) We woke up mrs. Perez.

4.
 - (F) rowndale elementary School
 - (G) Rowndale Elementary school
 - (H) Rowndale Elementary School
 - (J) Correct as it is
5.
 - (A) Very truly yours,
 - (B) Very Truly Yours
 - (C) Very Truly yours,
 - (D) Correct as it is

For numbers 3–5, read the letter. Then choose the answer that shows the correct capitalization and punctuation for the underlined phrase. Choose “Correct as it is” if the underlined part of the sentence is correct.

3.
 - (A) October, 12 2003
 - (B) october 12, 2003
 - (C) October 12, 2003
 - (D) Correct as it is

October 12 2003

Dear Akiko,

Please come to the Fall Festival at rowndale Elementary School. We will have games, prizes, and lots of snacks! It starts at noon on Saturday.

Very truly Yours

Ms. Michaels

LANGUAGE: LANGUAGE MECHANICS**SAMPLE TEST****Examples**

For item A, choose the answer that shows a capital letter that is missing. If no capital letters are missing, choose the answer "None."

- A.
- (A) I want
 - (B) to read
 - (C) *The Light in the window.*
 - (D) None

For item B, choose the answer that shows the correct capitalization.

- B. The ruler of England at that time was _____.
- (F) king George I
 - (G) King George I
 - (H) king george I
 - (J) King George i

For numbers 1–3, choose the answer that shows a capital letter that is missing. If no capital letters are missing, choose the answer "None."

- 1.
- (A) Oliver knows
 - (B) he isn't
 - (C) supposed to do that.
 - (D) None

- 2.
- (F) The theater
 - (G) is on
 - (H) Front street.
 - (J) None

- 3.
- (A) did you
 - (B) find your gift
 - (C) on the table?
 - (D) None

For numbers 4–5, choose the answer that shows the correct capitalization.

4. How was your visit with _____?
- (F) aunt alice
 - (G) Aunt alice
 - (H) Aunt Alice
 - (J) aunt Alice

5. My uncle lives in _____.
- (A) Paris, france
 - (B) paris, france
 - (C) Paris, France
 - (D) paris, France

LANGUAGE: LANGUAGE MECHANICS

SAMPLE TEST (cont.)

For numbers 6–10, choose the answer that shows the correct punctuation mark. If no punctuation is missing, choose the answer “None.”

6. We have lots of birds in our backyard.

- (F) .
- (G) ,
- (H) !
- (J) None

7. Ms Wheatley is my sister’s teacher.

- (A) .
- (B) ?
- (C) !
- (D) None

8. Hurry We’re going to miss the bus!

- (F) .
- (G) ?
- (H) !
- (J) None

9. How many boxes of cookies did you sell

- (A) .
- (B) ?
- (C) !
- (D) None

10. We used to live in Detroit Michigan.

- (F) ,
- (G) .
- (H) !
- (J) None

For numbers 11–14, choose the answer that shows the correct punctuation.

11. The book _____ on the shelf.

- (A) wasn’t
- (B) wasnt
- (C) was’nt
- (D) wasn’t’

12. _____ forget to bring home your uniform!

- (F) Dont
- (G) Don’t
- (H) Dont’
- (J) Do’nt

13. _____ a great friend.

- (A) Youre
- (B) Your’e
- (C) Youre’
- (D) You’re

14. _____ great to be going on vacation!

- (F) Its
- (G) I’ts
- (H) Its’
- (J) It’s

LANGUAGE: LANGUAGE MECHANICS**SAMPLE TEST (cont.)**

For numbers 15–20, choose the answer that shows the correct punctuation and capitalization.

15. (A) The bus comes for us at 7:30
 (B) terri likes to ride up front.

- (H) Thank-you for the tour, we are sending you this drawing of a flower.
- (J) Correct as it is

LANGUAGE: LANGUAGE EXPRESSION

Lesson 8: Paragraphs

Directions: Read each paragraph. Choose the answer that best fills in the blank as the topic sentence of the paragraph.

Example

A. _____. After President John Adams moved in, the outside was painted white. However, the name *White House* did not come into use until much later, when President Theodore Roosevelt had the name put on his writing paper.

- (A) The President's house was not always known as the White House.
- (B) George Washington did not want to live in the White House.
- (C) The White House was burned down during the War of 1812.
- (D) President Roosevelt, who lived in the White House, loved to ride horses.

Remember, a paragraph should contain one idea. All of the sentences should relate to that idea.

Practice

1. _____. Some sand looks white and seems to sparkle. Some sand may be light tan, black, or even pink. Sand has the same color as the rocks from which it was made. Looking at sand under a magnifying glass makes it possible to see the sparkling colors more clearly.

- (A) Sand can be made up of large or small grains.
- (B) All sand looks about the same.
- (C) Not all sand looks the same.
- (D) The color of sand is very important.

2. _____. They help keep bits of dust from getting into our eyes. They act as umbrellas, keeping the rain from our eyes. They also help shade our eyes from the sun. Like the frame around a beautiful painting, eyelashes play an important part in keeping our eyes safe.

- (F) Eyelashes can be blonde, brown, or black.
- (G) Eyelashes protect our eyes from harm.
- (H) Do you have long eyelashes?
- (J) Eyelashes can be straight or curled.

LANGUAGE: LANGUAGE EXPRESSION**● Lesson 8: Paragraphs (cont.)**

For numbers 3–4, read the topic sentence. Then choose the answer that develops the topic sentence in the best way.

3. **The canary is one of the best-liked of all pet birds.**

- (A) Canaries are not only pretty, but they sing cheerful songs.
- (B) Canaries can be yellow, red, or orange.
- (C) You have to be careful with a pet bird, or it may escape.
- (D) Canaries like to live in the Canary Islands.

4. **Some animals and insects are speedy creatures.**

- (F) A hummingbird can fly 60 miles an hour, and a duck can fly twice that fast.
- (G) Snails move very slowly.
- (H) Ducks and hummingbirds are both birds.
- (J) There are animals that are fast and some that are slow.

For numbers 5–7, read the paragraph. Then answer the questions.

(1) These people face some difficulties in looking at the world around them. (2) To the color blind, for example, red and green look like the same colors. (3) A color-blind person might have trouble telling a ripe tomato from an unripe one. (4) There are also some people in the world who cannot see any colors. (5) To them, everything looks black, white, or gray.

5. **Choose the best topic sentence for this paragraph.**

- (A) People who cannot tell one color from another are said to be *color blind*.
- (B) To these people, yellow and brown are the main colors they can see.
- (C) A color-blind person cannot see any colors.
- (D) Red and green are hard to tell apart.

6. **Choose the best last sentence for this paragraph.**

- (F) Color blindness can make some tasks difficult.
- (G) Color blindness creates special challenges, but does not keep people from leading normal lives.
- (H) People with color blindness look like other people.
- (J) Some animals are color blind, too.

7. **Choose the best sentence to add between Sentences 3 and 4.**

- (A) These people might also have difficulty telling “stop” from “go” on a traffic light.
- (B) Color blindness can be measured with special tests.
- (C) Color-blind people do not look different from other people.
- (D) Color blindness may be cured in the future with special glasses.

LANGUAGE: LANGUAGE EXPRESSION**● Lesson 8: Paragraphs (cont.)**

Read the essay. Then answer questions 8–11.

(1) Put about four spoonfuls of water and one spoonful of sugar in a very small, open bottle. (2) Paint the bottle red. (3) Then hang the bottle under an overhanging roof or near a window. (4) If you plant red flowers, they will help, too. (5) The tiny hummingbirds will come to drink the sugar water. (6) The hummingbird will think that the bright feeder is another flower, and the sugar water is flower nectar. (7) Hummingbirds like brightly colored flowers that have lots of nectar.

8. Choose the best topic sentence for this paragraph.

- (F) Here's how to attract hummingbirds to your backyard.
- (G) Hummingbirds are among the fastest flyers in the bird world.
- (H) Do you like hummingbirds?
- (J) Hummingbirds are colorful birds.

9. Choose a sentence to take out of the essay.

- (A) Sentence 1
- (B) Sentence 3
- (C) Sentence 4
- (D) Sentence 6

10. Choose a better place for Sentence 7.

- (F) Between Sentence 1 and Sentence 2
- (G) Between Sentence 2 and Sentence 3
- (H) Between Sentence 3 and Sentence 4
- (J) Between Sentence 5 and Sentence 6

11. Choose the best sentence to add to the end of the essay.

- (A) Hummingbirds are as brightly colored as the flowers they like best.
- (B) Hummingbirds are fast flyers and dart from place to place.
- (C) By building a simple feeder, you can help hummingbirds and enjoy them in your yard.
- (D) By building a simple feeder, you can trick hummingbirds.

LANGUAGE: LANGUAGE EXPRESSION**SAMPLE TEST (cont.)**

For numbers 37–39, read the paragraph. Then choose the answer that is the best topic sentence for the paragraph.

37. _____. First, I think it would be fun to spend time with my friends. Second, we have not had a homemade cake in a long time. Third, my sister and brother would enjoy a birthday party, too.

- (A) I would like to invite six friends.
- (B) I am turning nine in two weeks.
- (C) I would like a new computer game for my birthday.
- (D) I think I should be able to have a birthday party for three reasons.

38. _____. Winter is white with snow. The cold air feels good on my face. I love building forts and making snow angels. I also love drinking hot chocolate in front of the fire.

- (F) Winter is my favorite season.
- (G) In winter, you can go ice skating.
- (H) In some places, it doesn't snow in the winter.
- (J) I don't like winter.

39. _____. Surfing and bike riding are her favorites, but she's good at lots of different sports. Trina won a championship in tennis, and she is also a good swimmer. In the winter, she likes to go skiing and skating.

- (A) Trina is a good baseball player.
- (B) Trina is a good student.
- (C) Trina loves sports.
- (D) Trina won a swimming medal.

LANGUAGE: LANGUAGE EXPRESSION**SAMPLE TEST (cont.)**

For numbers 40–43, read the paragraph. Then answer the questions.

(1) When the rocks were brought back to Earth, people studied them. (2) Many things about the moon. (3) One discovery was the age of the moon. (4) The rocks also told us that there is very little water on the moon. (5) The moon is 4.2 billion years old.

40. Choose the best topic sentence for this paragraph.

- (F) In the 1960s, there was a race to get to the moon.
- (G) In 1969, three men landed on the moon.
- (H) Neil Armstrong was the first man to step onto the moon's surface.
- (J) In 1969, astronauts brought back rocks from the moon.

41. Choose the best last sentence for this paragraph.

- (A) The first journey to the moon helped us learn more about our universe.
- (B) The United States won the race to the moon.
- (C) I wonder what the astronauts thought about the moon?
- (D) The moon is very old.

42. Choose the best sentence to add between Sentences 3 and 4.

- (F) The rocks from space were looked at in a lab.
- (G) The moon rocks were very valuable.
- (H) By studying the moon rocks, we learned more about the moon's soil.
- (J) The astronauts kept some moon rocks for themselves.

43. Which choice is not a complete sentence?

- (A) Sentence 1
- (B) Sentence 2
- (C) Sentence 3
- (D) Sentence 4

LANGUAGE: SPELLING

Lesson 9: Spelling

Examples

For A and numbers 1–3, choose the word that fits into the sentence and is spelled correctly.

A. She is not _____ to go.

- (A) eble
- (B) able
- (C) abel
- (D) abell

For B and numbers 4–6, choose the word that is spelled incorrectly. If all of the words are spelled correctly, choose “No mistakes.”

- B.
- (F) attack
 - (G) funnel
 - (H) cousin
 - (J) No mistakes

Read the directions carefully. In this lesson, you will be looking for both correctly and incorrectly spelled words.

Practice

1. Please don't _____ your new shirt.

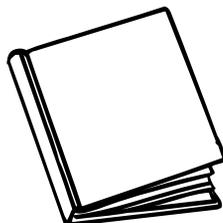

- (A) winkle
- (B) wrinkle
- (C) wrinkel
- (D) wrinekle

2. The _____ is surrounded with flowers.

- (F) fountin
- (G) fontain
- (H) fountein
- (J) fountain

3. Jane treated her book _____.

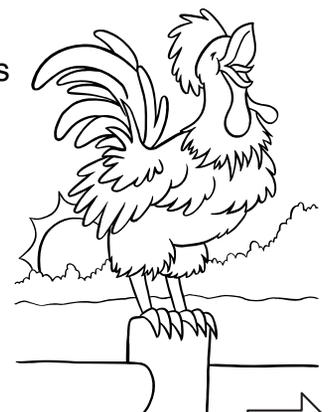

- (A) carlessly
- (B) carelessly
- (C) carelesly
- (D) carelissly

- 4.
- (F) copper
 - (G) relaxing
 - (H) bandege
 - (J) No mistakes

- 5.
- (A) foraign
 - (B) perfume
 - (C) tablet
 - (D) No mistakes

- 6.
- (F) sunrise
 - (G) shephard
 - (H) furniture
 - (J) No mistakes

LANGUAGE: SPELLING

● Lesson 9: Spelling (cont.)

For numbers 7–15, choose the word that is spelled incorrectly.

- 7. (A) enjineer
(B) dryer
(C) mineral
(D) daisy
- 8. (F) diary
(G) nationel
(H) pronoun
(J) barrel
- 9. (A) period
(B) unusal
(C) president
(D) promise
- 10. (F) curtain
(G) cryed
(H) morning
(J) bath
- 11. (A) giant
(B) interesting
(C) trash
(D) thousand
- 12. (F) biology
(G) vacation
(H) exemple
(J) absent
- 13. (A) agree
(B) elbow
(C) wooden
(D) woolan

- 14. (F) lonely
(G) fansy
(H) ferry
(J) bacon
- 15. (A) continew
(B) carve
(C) deer
(D) hawk

For numbers 16–20, read each sentence. Look for the underlined word that is spelled incorrectly and choose that phrase. Choose “No mistakes” if the sentence is correct.

- 16. (F) The two girls
(G) jumped into the pool
(H) with a huje splash.
(J) No mistakes
- 17. (A) My favorite samwich
(B) is peanut butter
(C) and grape jelly.
(D) No mistakes
- 18. (F) Pam’s dollhouse
(G) has real lites
(H) and a staircase.
(J) No mistakes
- 19. (A) Wolf pups
(B) play outdoors
(C) when they are three weeks old.
(D) No mistakes
- 20. (F) Thick, black smoke
(G) poured out
(H) of all the windows.
(J) No mistakes

LANGUAGE: SPELLING**SAMPLE TEST****Examples**

For A and numbers 1–4, choose the word that fits into the sentence and is spelled correctly.

A. He shot the _____ into the air.

- (A) arrow
- (B) errow
- (C) airrow
- (D) airow

For B and numbers 5–8, choose the word that is spelled incorrectly. If all of the words are spelled correctly, choose “No mistakes.”

- B.
- (F) toast
 - (G) rooster
 - (H) emeny
 - (J) No mistakes

1. Kiko has a new _____.

- (A) wissel
- (B) whistill
- (C) whistle
- (D) wistle

2. Sabrina wouldn't _____ to do that!

- (F) dare
- (G) dair
- (H) daire
- (J) dere

3. The cord would not _____ that far.

- (A) strech
- (B) stretch
- (C) stretsh
- (D) streitch

4. Did you _____ your seatbelt?

- (F) fastin
- (G) fassen
- (H) fastain
- (J) fasten

5. (A) suffer

- (B) pleasure
- (C) pleasant
- (D) No mistakes

6. (F) imagene

- (G) marry
- (H) court
- (J) No mistakes

7. (A) toughest

- (B) principal
- (C) emergensy
- (D) No mistakes

8. (F) public

- (G) prepar
- (H) frown
- (J) No mistakes

LANGUAGE: SPELLING**SAMPLE TEST (cont.)**

For numbers 9–17, choose the word that is spelled correctly.

9. (A) beaf
(B) cideer
(C) cheif
(D) miracle
10. (F) graduete
(G) strayt
(H) solar
(J) calander
11. (A) mayor
(B) honer
(C) experiance
(D) tuff
12. (F) enough
(G) releese
(H) foldar
(J) decerate
13. (A) villaje
(B) diskuss
(C) contast
(D) squirrel
14. (F) wherevar
(G) prisaner
(H) invitation
(J) blender
15. (A) babys
(B) sneekers
(C) progrem
(D) product

16. (F) iland
(G) melan
(H) humid
(J) dutys
17. (A) sprinkle
(B) posishun
(C) gymasium
(D) billyan

For numbers 18–22, read each sentence. Look for the underlined word that is spelled incorrectly and choose that phrase. Choose “No mistakes” if the sentence is correct.

18. (F) The hidden passege
(G) was flooded

22. (F) In a foreign country,
(G) you cannot expect
(H) people to speak English.
(J) No mistakes

LANGUAGE: STUDY SKILLS

● Lesson 10: Study Skills

Directions: Read each item. Choose the answer that you think is correct.

Examples

A. Which of these words comes first in the dictionary?

- (A) wood
- (B) wool
- (C) wander
- (D) wand

B. Where would you look to find information about sharks?

- (F) in a newspaper
- (G) in a history book
- (H) in a dictionary
- (J) in an encyclopedia

Be sure to look at all the choices carefully. Eliminate answer choices you know are wrong.

● Practice

1. Which of these words comes first in the dictionary?

- (A) reef
- (B) relief
- (C) real
- (D) repeat

2. Which of these words comes first in the dictionary?

- (F) narrow
- (G) native
- (H) none
- (J) noon

3. Which of these words comes first in the dictionary?

- (A) gather
- (B) gate
- (C) gear
- (D) gain

4. Where would you look to check the spelling of *emergency*?

- (F) in a newspaper
- (G) in a history book
- (H) in a dictionary
- (J) in an encyclopedia

5. Where would you look to find information about today's weather?

- (A) in a newspaper
- (B) in a history book
- (C) in a dictionary
- (D) in an encyclopedia

6. Where would you look to find out who was the twelfth President?

- (F) in a newspaper
- (G) in a magazine
- (H) in a dictionary
- (J) in an encyclopedia

LANGUAGE: STUDY SKILLS

● Lesson 10: Study Skills (cont.)

Directions: Read the Table of Contents and Index. Then answer the questions.

TABLE OF CONTENTS	INDEX
Chapter 1: Animals Around the World 11	anteaters 12, 14–15
Chapter 2: Zoos of the World 42	black widow spiders 114, 118
Chapter 3: Creatures of the Sea 59	crocodiles 103–107
Chapter 4: Rodents 85	mice 89–93
Chapter 5: Reptiles and Amphibians 101	deer mice 90
Chapter 6: Insects and Spiders 112	house mice 92–93
	rainforest animals 39–41
	whales 60–64
	blue whales 62
	killer whales 64

Remember, a table of contents gives you the names of chapters or topics, and an index shows you where specific information is found.

● Practice

7. In which chapter would you look for information about butterflies?

- (A) Chapter 3
- (B) Chapter 4
- (C) Chapter 5
- (D) Chapter 6

8. There is some information about mice on page—

- (F) 15
- (G) 105
- (H) 90
- (J) 55

9. To find out about rainforest animals, turn to pages—

- (A) 60–64
- (B) 103–107
- (C) 39–41
- (D) 14–15

10. Which chapter would you read to learn about rats?

- (F) Chapter 1
- (G) Chapter 2
- (H) Chapter 3
- (J) Chapter 4

11. If you wanted information on blue whales, you would turn to page—

- (A) 60
- (B) 61
- (C) 62
- (D) 64

12. Where would you look to find information about the Seattle Zoo?

- (F) Chapter 1
- (G) Chapter 2
- (H) Chapter 3
- (J) Chapter 4

LANGUAGE PRACTICE TEST

Part 1: Language Mechanics

Examples

For A and numbers 1–5, choose the answer that shows the correct punctuation mark. If no punctuation is missing, choose the answer “None.”

A. My uncle lives in Paris France.

- (A) .
- (B) ,
- (C) !
- (D) None

For B and numbers 6–8, choose the answer that shows the correct punctuation.

B. The store _____ on Fort Street.

- (F) wasn't
- (G) wasnt
- (H) was'nt
- (J) wasn't'

1. Is that your house

- (A) .
- (B) ,
- (C) ?
- (D) None

2. Mr Sanchez is a lawyer.

- (F) .
- (G) ?
- (H) !
- (J) None

3. Don't touch that

- (A) ,
- (B) ?
- (C) !
- (D) None

4. The old dog slept in the sun.

- (F) .
- (G) ?
- (H) !
- (J) None

5. We moved here from Seattle Washington.

- (A) ,
- (B) .
- (C) !
- (D) None

For numbers 6–8, choose the answer that shows the correct punctuation.

6. _____ you Jason's cousin?

- (F) Aren't
- (G) Arent
- (H) Are'nt
- (J) Arent'

7. _____ walk on the grass.

- (A) Dont
- (B) Don't
- (C) Dont'
- (D) Do'nt

8. _____ better at math than I am.

- (F) Youre
- (G) Your'e
- (H) Youre'
- (J) You're

LANGUAGE PRACTICE TEST**Part 1: Language Mechanics (cont.)**

For numbers 9–13, choose the answer that shows a capital letter that is missing.

9. (A) he walked
 (B) to the store
 (C) to buy milk.
 (D) None
10. (F) My aunt
 (G) is named
 (H) aunt Tilly.
 (J) None
11. (A) On our trip
 (B) to France,
 (C) we saw Roman ruins.
 (D) None
12. (F) My mother
 (G) wrote a book,
 (H) *The ocean and You.*
 (J) None
13. (A) My brothers
 (B) are named
 (C) Jared and Jamal.
 (D) None

For numbers 14–17, choose the answer that shows the correct capitalization.

14. Did you start school on _____?
 (F) tuesday morning
 (G) Tuesday morning
 (H) Tuesday Morning
 (J) tuesday Morning
15. Ms. Wu is my _____.
 (A) favorite teacher
 (B) Favorite teacher
 (C) favorite Teacher
 (D) Favorite Teacher
16. Isn't that zoo in _____?
 (F) San francisco
 (G) San Francisco
 (H) san francisco
 (J) san Francisco
17. Math is my _____.
 (A) best Subject
 (B) Best Subject
 (C) Best subject
 (D) best subject

LANGUAGE PRACTICE TEST

Part 1: Language Mechanics (cont.)

For numbers 18–22, read the passage. Then answer the questions. The passage has underlined phrases, and the questions will ask about them. Choose “Correct as it is” if the underlined part of the sentence is correct.

(1) Yellowstone park is known for its geysers. (2) A geyser is formed when water is trapped under the ground melted rock heats the water. (3) When the water boils, it shoots through a hole and high into the air. (4) There are more than 300 geysers in Yellowstone. (5) The best-known geyser is called old faithful. (6) It is as faithful as a clock. (7) Old Faithfuls fame makes it the most visited geyser in Yellowstone Park.

18. In Sentence 1, Yellowstone park is best written—

- (F) yellowstone park
- (G) Yellowstone Park
- (H) YellowStone Park
- (J) Correct as it is

19. In Sentence 2, ground melted rock is best written—

- (A) ground. Melted rock
- (B) ground, melted rock
- (C) ground melted. Rock
- (D) Correct as it is

20. In Sentence 4, There are more than 300 geysers in Yellowstone. is best written—

- (F) There are More than 300 geysers in Yellowstone.
- (G) There are more than 300 geysers. In Yellowstone.
- (H) There are more than 300 geysers in yellowstone.
- (J) Correct as it is

21. In Sentence 5, old faithful is best written—

- (A) old Faithful
- (B) Old faithful
- (C) Old Faithful
- (D) Correct as it is

22. In Sentence 7, Old Faithfuls fame is best written—

- (F) Old Faithfuls' fame
- (G) old Faithful's fame
- (H) Old Faithful's fame
- (J) Correct as it is

LANGUAGE PRACTICE TEST

Part 2: Language Expression

Examples

Read each item. For A and numbers 1–4, choose the word that completes the sentence best.

A. The _____ plants are on the windowsill.

- (A) more pretty
- (B) prettier
- (C) prettiest
- (D) most prettier

For B and numbers 5–7, choose the answer that is a correct and complete sentence.

- B.**
- (F) Find we a map of this town.
 - (G) I think us are lost!
 - (H) We should have turned right on Mason Street.
 - (J) Drive more slower so we can find the street.

1. Please lend _____ your mittens.

- (A) her
- (B) she
- (C) its
- (D) they

2. Don't _____ in the hallway.

- (F) running
- (G) ran
- (H) run
- (J) had run

3. The vine _____ up the side of the house.

- (A) climbing
- (B) climbs
- (C) did climbing
- (D) climb

4. Dr. and Mrs. Brown _____ the school last Monday.

- (F) visiting
- (G) visit
- (H) visits
- (J) visited

5. (A) Basketball was first thinked up by a teacher.

- (B) He needed a game for students to play indoors in the winter.
- (C) He nails a basket to the wall and made up a set of rules.
- (D) I think him had an idea that we all can enjoy!

6. (F) Bird watchers sometimes see birds taking dust baths.

- (G) The birds use the dust like them bathtub.
- (H) The dust helps they get rid of tiny bigs in their feathers.
- (J) The birds is smart to do this.

7. (A) The sunflower can be up to a foot wide.

- (B) It's petals are yellow.
- (C) They stem of this flower is very tall.
- (D) Some sunflowers is twice as tall as children.

LANGUAGE PRACTICE TEST**Part 2: Language Expression (cont.)**

For numbers 8–12, choose the answer that has the simple subject of the sentence underlined.

8. (F) The brave firefighters are always ready to go.
(G) A loud bell rings.
(H) The firefighters get into their red truck.
(J) A spotted dog runs after the truck.
9. (A) I like to take care of my garden.
(B) The black crows want to eat my corn.
(C) The little rabbit wants to eat my carrots.
(D) Even my silly dog likes to dig in my garden.
10. (F) My best friend Ed likes to play baseball.
(G) My two cousins like to play, too.
(H) We play on a team together.
(J) The baseball games start next week.
11. (A) The Golden Gate Bridge was built across a large bay
(B) Two towers hold up the bridge.
(C) Giant cables hang between the towers.
(D) This special bridge is famous.

12. (F) People built bridges long ago, just like they do today.
(G) One kind of bridge that was used was a rope bridge.
(H) The Romans built some stone bridges.
(J) All kinds of bridges helped people in their daily lives.

For numbers 13–17, choose the answer choice that has the mistake. If all choices are correct, choose “No mistakes.”

13. (A) The running shoes
(B) wasn't the right size,
(C) so I returned them.
(D) No mistakes
14. (F) A baby kangaroo
(G) lives in its mothers pouch
(H) for nine months.
(J) No mistakes
15. (A) Josh ran back
(B) to mason Park
(C) to look for his gloves.
(D) No mistakes
16. (F) I was worried
(G) that I did badly
(H) on the history test.
(J) No mistakes
17. (A) Jerry went over
(B) to Jeff's house
(C) to played computer games.
(D) No mistakes

LANGUAGE PRACTICE TEST**Part 2: Language Expression (cont.)**

For numbers 18–20, choose the best combination of the underlined sentences.

18. Mr. Lee is my teacher. Mr. Lee teaches third grade.

- (F) Mr. Lee teachers third grade and he is my teacher.
- (G) Mr. Lee is my teacher and he teaches third grade.
- (H) Mr. Lee is my teacher for third grade.
- (J) Mr. Lee, teaches third grade, is my teacher.

19. Chang went downtown. Chang went to the store.

- (A) Chang went to the store and Chang went downtown.
- (B) Chang went to the store and downtown.
- (C) Chang, who went downtown, went to the store.
- (D) Chang went downtown to the store.

20. You may play outside. You may play after you clean your room.

- (F) After you clean your room, you may play outside.
- (G) You may play outside, but you may play after you clean your room.
- (H) You may play after you clean your room, outside.
- (J) Playing outside, you may after you clean your room.

For numbers 21–23, choose the best version of the sentence.

21. (A) On Saturday, we went to Grant Park for a picnic.
(B) To Grant Park we went, on Saturday, for a picnic.
(C) We went, for a picnic, to Grant Park on Saturday.
(D) For a picnic, we went on Saturday to Grant Park.

22. (F) On the hill, Mr. Juarez lives in the house with the big garden.
(G) Mr. Juarez lives in the house with the big garden, on the hill.
(H) Mr. Juarez lives in the house on the hill with the big garden.
(J) With the big garden, Mr. Juarez lives in the house on the hill.

23. (A) The firefly gives off light, but it does not give off heat.
(B) The firefly gives off light but not heat.
(C) The firefly, which does not give off heat, gives off light.
(D) Gives off light, the firefly does not give off heat.

LANGUAGE PRACTICE TEST**Part 2: Language Expression (cont.)**

Read the essay. Use the information to answer questions 24–27.

(1) Snowflakes look like white stars falling from the sky. (2) But there have been times when snow has looked red, green, yellow, and even black. (3) Black snow in France one year. (4) Another year, gray snow fell in Japan. (5) To make this dark snow, snow had mixed with ashes to make it. (6) Red snow that fell one year was made of snow mixed with red clay dust. (7) Most snow looks white. (8) It is really the color of ice. (9) Each snowflake begins with a small drop of frozen water. (10) When that water is mixed with some other material, the result is strangely colored snow.

24. Sentence 5 is best written—

- (F) Snow had mixed with ashes to make this dark snow.
- (G) Snow mixed with ashes was how this snow was made into dark snow.
- (H) To make this dark snow, it had ashes mixed with it.
- (J) Correct as it is

25. Which is not a complete sentence?

- (A) Sentence 1
- (B) Sentence 2
- (C) Sentence 3
- (D) Sentence 4

26. How could Sentences 7 and 8 best be joined together?

- (F) Really the color of ice, most snow looks white.
- (G) The color of ice, most snow is really white.
- (H) Most snow looks white and it is really the color of ice.
- (J) Most snow looks white, but it is really the color of ice.

27. Choose a topic sentence for this paragraph.

- (A) Think how it would seem to have colored snowflakes coming down around you.
- (B) Black snow in France scared the citizens.
- (C) Snow is always white, but it is really the color of ice.
- (D) Drops of frozen water make snow.

LANGUAGE PRACTICE TEST

Part 3: Spelling

Examples

For A and numbers 1–4, choose the word that fits into the sentence and is spelled correctly.

A. He is _____ with us.

- (A) anoyed
- (B) annoyed
- (C) annoied
- (D) anoied

For B and numbers 5–8, choose the word that is spelled incorrectly. If all of the words are spelled correctly, choose “No mistakes.”

- B.
- (F) blankit
 - (G) crater
 - (H) footstep
 - (J) No mistakes

1. Please remember to _____ your homework.

- (A) compleet
- (B) compleit
- (C) complete
- (D) compete

2. The _____ is from the Ice Age.

- (F) glasier
- (G) glacer
- (H) glaceer
- (J) glacier

3. Henry was in the _____.

- (A) hospital
- (B) hospitle
- (C) hospittle
- (D) hospitel

4. Did you _____ the movie star?

- (F) recognise
- (G) recognize
- (H) recagnize
- (J) recegnise

5.

- (A) sigh
- (B) merchant
- (C) moral
- (D) No mistakes

6.

- (F) league
- (G) hockey
- (H) meer
- (J) No mistakes

7.

- (A) churn
- (B) cottage
- (C) cadet
- (D) No mistakes

8.

- (F) cristal
- (G) faraway
- (H) afford
- (J) No mistakes

LANGUAGE PRACTICE TEST**Part 3: Spelling (cont.)**

For numbers 9–16, choose the word that is spelled incorrectly. If all of the words are spelled correctly, choose “No mistakes.”

9. (A) curl
(B) nerse
(C) further
(D) No mistakes
10. (F) writer
(G) cofee
(H) score
(J) No mistakes
11. (A) wrist
(B) resess
(C) lazy
(D) No mistakes
12. (F) finger
(G) addition
(H) supar
(J) No mistakes
13. (A) dangerous
(B) passenger
(C) nature
(D) No mistakes
14. (F) flask
(G) puzzle
(H) vegatable
(J) No mistakes
15. (A) pickel
(B) knick
(C) witch
(D) No mistakes

16. (F) reaf
(G) geese
(H) queen
(J) No mistakes

For numbers 17–22, read each sentence. Look for the underlined word that is spelled incorrectly and choose that phrase. Choose “No mistakes” if the sentence is all correct.

17. (A) The fir on a rabbit’s feet
(B) gives the rabbit
(C) the ability to hop on the snow.
(D) No mistakes
18. (F) Some farmers
(G) raize worms
(H) as a crop.
(J) No mistakes
19. (A) You can bake apples,
(B) make applesauce,
(C) or create delicious pies.
(D) No mistakes
20. (F) Traffick signs
(G) that are colored yellow
(H) warn of changes ahead.
(J) No mistakes
21. (A) Ancient drawings
(B) show the Romans and Greeks
(C) buying candy at shops.
(D) No mistakes
22. (F) The stilt bird
(G) has thin, red legs
(H) and black feithers.
(J) No mistakes

LANGUAGE PRACTICE TEST

Part 4: Study Skills

Directions: For numbers A, B, and 1–8, choose the answer you think is correct.

Examples

A. Which of these words comes first in the dictionary?

- (A) damp
- (B) darn
- (C) dale
- (D) den

B. Look at the guide words. Which word would be found on the page?

- (F) arctic
- (G) ape
- (H) aster
- (J) assure

guide words
apple—assume

1. Which of these words comes first in the dictionary?

- (A) tiger
- (B) tin
- (C) tiny
- (D) tine

5. Which of these words comes first in the dictionary?

- (A) trip
- (B) trap
- (C) tip
- (D) truck

2. Which of these words comes first in the dictionary?

- (F) this
- (G) thirty
- (H) thirsty
- (J) thirteen

6. Look at the guide words. Which word would be found on the page?

- (F) brute
- (G) broken
- (H) burn
- (J) brake

guide words
branch—brown

3. Which of these words comes first in the dictionary?

- (A) city
- (B) cider
- (C) cinder
- (D) cliff

7. Look at the guide words. Which word would be found on the page?

- (A) puppy
- (B) pet
- (C) protect
- (D) punish

guide words
prize—pump

4. Which of these words comes first in the dictionary?

- (F) interesting
- (G) indeed
- (H) insurance
- (J) idea

8. Look at the guide words. Which word would be found on the page?

- (F) stress
- (G) strong
- (H) straw
- (J) strum

guide words
strawberry—stroll

LANGUAGE PRACTICE TEST

Part 4: Study Skills (cont.)

For numbers 9–12, choose the answer that you think is correct.

9. Where would you look to find the date of Memorial Day this year?

- (A) in a newspaper
- (B) in a catalog
- (C) in a dictionary
- (D) on a calendar

10. Where would you look to find a biography of Martin Luther King, Jr.?

- (F) in a newspaper
- (G) in an atlas
- (H) in an encyclopedia
- (J) in a math book

11. Where would you look to find the address of a school?

- (A) in a newspaper
- (B) in a telephone book
- (C) in a dictionary
- (D) in an encyclopedia

12. Which of these books would help you find out about becoming a pilot?

- (F) *The History of Flight*
- (G) *Finding the Cheapest Airfares*
- (H) *Learning to Fly and Navigate*
- (J) *The Flight to the North Pole*

For numbers 13–16, read the Table of Contents. Then answer the questions.

TABLE OF CONTENTS

Chapter 1: Choosing Your Breed of Dog ... 11
 Chapter 2: Selecting the Right Puppy 42
 Chapter 3: Care and Feeding of Puppies 58
 Chapter 4: Training Young Dogs 86
 Chapter 5: Medical Care for Dogs 102
 Chapter 6: Do You Have a Champion? ...116

13. A good title for this book might be—

- (A) *The Dog Owner's Manual*
- (B) *Finding A Puppy of Your Own*
- (C) *Champion Dog Breeds*
- (D) *The History of Pets*

14. To learn how to teach your dog to sit, turn to—

- (F) Chapter 1
- (G) Chapter 2
- (H) Chapter 3
- (J) Chapter 4

15. If you can't decide what kind of dog you want, turn to—

- (A) Chapter 1
- (B) Chapter 2
- (C) Chapter 3
- (D) Chapter 4

16. If your puppy seems to have a cold, turn to page—

- (F) 42
- (G) 58
- (H) 86
- (J) 102

MATH: CONCEPTS

● Lesson 1: Numeration

Directions: Read and work each problem. Find the correct answer. Mark the space for your choice.

Examples

A. Which of these is greater than 11?

- (A) 9
- (B) 5
- (C) 13
- (D) 10

B. What is another name for 72?

- (F) 7 tens and 3 ones
- (G) 8 tens and 0 ones
- (H) 7 tens and 7 ones
- (J) 7 tens and 2 ones

Look for key words and numbers that will help you find the answers.

● Practice

1. You are ninth in line for movie tickets. How many people are ahead of you?

- (A) 9
- (B) 7
- (C) 8
- (D) 10

4. The number 589 is less than—

- (F) 598
- (G) 579
- (H) 589
- (J) 588

2. Which number is greater than 97?

- (F) 55
- (G) 102
- (H) 87
- (J) 96

3. What is another name for 4 hundreds, 6 tens, and 5 ones?

- (A) 4,650
- (B) 465
- (C) 40,650
- (D) 4,560

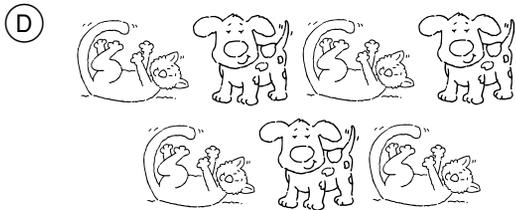

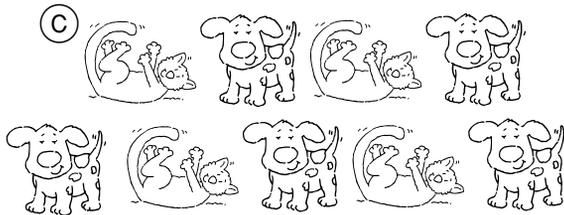

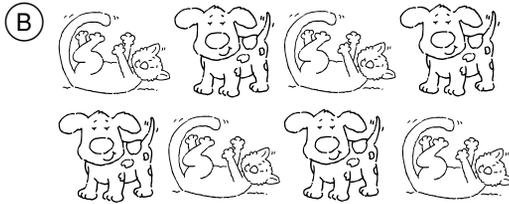

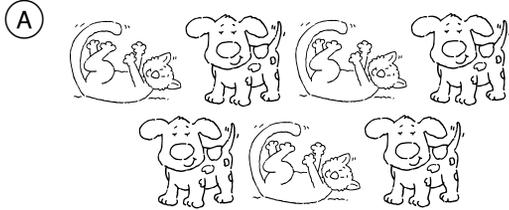

MATH: CONCEPTS

● Lesson 1: Numeration (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

5. Which of these shows the same number of cats and dogs?

6. What is another name for 982?

- (F) 9 thousands, 8 tens, and 2 ones
- (G) 9 hundreds, 2 tens, and 8 ones
- (H) 9 tens and 8 ones
- (J) 9 hundreds, 8 tens, and 2 ones

7. How many of these numbers are greater than 218?

- (A) 1
- (B) 2
- (C) 3
- (D) 4

8. If you arranged these numbers from least to greatest, which number would be last?

- (F) 1,012
- (G) 1,021
- (H) 1,022
- (J) 1,002

9. How many hundreds are in 5,743?

- (A) 5
- (B) 3
- (C) 4
- (D) 7

10. The number 1,691 is less than—

- (F) 1,609
- (G) 1,699
- (H) 1,690
- (J) 1,600

11. How many thousands are in 9,482?

- (A) 8
- (B) 2
- (C) 4
- (D) 9

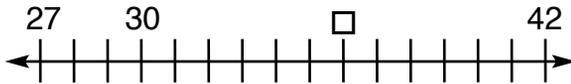

MATH: CONCEPTS

● Lesson 1: Numeration (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

12. What number goes into the box on the number line?

- (F) 34
- (G) 36
- (H) 38
- (J) 40

13. What is another name for 651?

- (A) 6 thousands, 5 tens, and 1 ones
- (B) 6 hundreds, 1 tens, and 5 ones
- (C) 6 tens and 5 ones
- (D) 6 hundreds, 5 tens, and 1 one

14. Which of these numbers would come before 157 on a number line?

- (F) 159
- (G) 147
- (H) 165
- (J) 158

15. How many of these numbers are greater than 1,114?

1,041 1,113 1,116 1,111

- (A) 1
- (B) 2
- (C) 3
- (D) 4

16. How many hundreds are in 2,931?

- (F) 2
- (G) 3
- (H) 1
- (J) 9

17. How many thousands are in 6,517?

- (A) 5
- (B) 1
- (C) 6
- (D) 7

18. If a day's snowfall was between 1.01 inches and 2.32 inches, which of the measurements below might be the actual snowfall amount?

- (F) 1.00 inches
- (G) 2.23 inches
- (H) 2.52 inches
- (J) 2.60 inches

MATH: CONCEPTS

● Lesson 2: Number Concepts

Directions: Read and work each problem. Find the correct answer. Mark the space for your choice.

Examples

A. Which of these is seventy-nine?

- (A) 79
- (B) 97
- (C) 970
- (D) 790

B. Which of these is an odd number?

- (F) 424
- (G) 12
- (H) 317
- (J) 76

Look at any pictures or graphs carefully. When you are not sure of an answer, make your best guess and move on to the next problem.

● Practice

1. What number is represented by the chart?

Hundreds	Tens	Ones

- (A) 335
- (B) 533
- (C) 353
- (D) 335

2. What number is missing from the sequence?

6	12	18	—	30
---	----	----	---	----

- (F) 20
- (G) 24
- (H) 22
- (J) 26

3. Which of these is nine hundred sixty-four?

- (A) 9,604
- (B) 946
- (C) 9,640
- (D) 964

4. Find the answer that shows 35 peanuts.

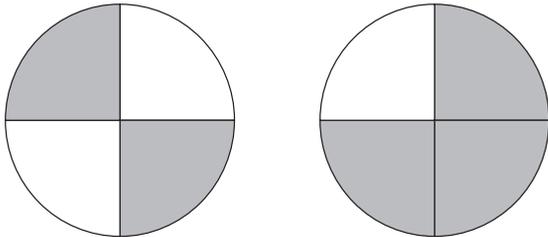

MATH: CONCEPTS

● Lesson 2: Number Concepts (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

5.

From the figures above, you know that—

- (A) $\frac{1}{3}$ is greater than $\frac{2}{3}$.
- (B) $\frac{1}{2}$ is greater than $\frac{3}{4}$.
- (C) $\frac{1}{2}$ is greater than $\frac{1}{4}$.
- (D) $\frac{3}{4}$ is greater than $\frac{1}{2}$.

6. 5 hundreds and 7 thousands equals—

- (F) 5,700
- (G) 7,050
- (H) 570
- (J) 7,500

7. Count by tens. Which number comes after 70 and before 90?

- (A) 50
- (B) 60
- (C) 80
- (D) 100

8. Which number below has a 9 in the hundreds place?

- (F) 5,967
- (G) 5,798
- (H) 9,654
- (J) 5,697

9. Which of these fractions is the largest?

- (A) $\frac{2}{3}$
- (B) $\frac{5}{6}$
- (C) $\frac{1}{4}$
- (D) $\frac{1}{6}$

10. Which number is an odd number and can be divided by 5?

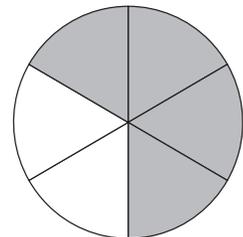

- (F) 30
- (G) 35
- (H) 40
- (J) 50

11. Which group of numbers has three odd numbers?

- (A) 8, 12, 15, 17, 20, 26, 30
- (B) 7, 10, 12, 13, 19, 22, 36
- (C) 2, 5, 8, 14, 18, 28, 32, 40
- (D) 16, 27, 28, 29, 30, 34, 38

12. How much of the circle below is shaded?

- (F) $\frac{5}{6}$
- (G) $\frac{2}{3}$
- (H) $\frac{1}{2}$
- (J) $\frac{1}{6}$

MATH: CONCEPTS**● Lesson 3: Properties**

Directions: Read and work each problem. Find the correct answer. Mark the space for your choice.

Examples

A. $12 + \square = 17$ $10 - \square = 5$

Which number completes both number sentences above?

- (A) 3
- (B) 6
- (C) 5
- (D) 7

B. Which of these is 479 rounded to the nearest hundred?

- (F) 400
- (G) 470
- (H) 500
- (J) 580

Read each question carefully. If you are working on scrap paper, be sure to read your notes carefully, too.

**● Practice**

1. $26 - \square = 17$ $31 + \square = 40$

Which number completes both number sentences above?

- (A) 6
- (B) 8
- (C) 9
- (D) 7

2. $22 + \square = 29$ $16 - \square = 9$

Which number completes both number sentences above?

- (F) 5
- (G) 9
- (H) 7
- (J) 6

3. Which of these is closest in value to 190?

- (A) 186
- (B) 192
- (C) 179
- (D) 199

4. Which of these is 288 rounded to the nearest hundred?

- (F) 200
- (G) 300
- (H) 280
- (J) 380

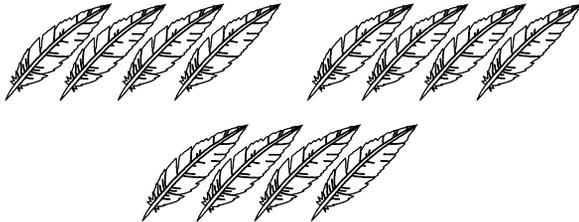

MATH: CONCEPTS

● Lesson 3: Properties (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

5. Which number sentence shows how to find the total number of feathers?

- (A) $3 + 4$
- (B) $3 \div 4$
- (C) $4 - 3$
- (D) 4×3

6. Round these numbers to the nearest hundred: 575, 612, 499, 633, 590, 680. How many of them will be 600?

- (F) 3
- (G) 4
- (H) 5
- (J) 6

7. $18 \square 9 = 9$

Which operation sign belongs in the box above?

- (A) +
- (B) -
- (C) \times
- (D) \div

8. $27 \square 8 = 19$ $10 \square 2 = 8$
Which operation sign belongs in both boxes above?

- (F) +
- (G) -
- (H) \times
- (J) \div

9. $0.8 =$

- (A) $\frac{1}{8}$
- (B) $\frac{8}{100}$
- (C) $\frac{80}{100}$
- (D) $\frac{8}{10}$

10. Which number sentence would you use to estimate 97×9 to the nearest 100?

- (F) 90×5
- (G) 100×10
- (H) 90×10
- (J) 100×5

11. $\frac{1}{2} = \frac{3}{\square}$

What does the \square equal?

- (A) 2
- (B) 5
- (C) 4
- (D) 6

MATH: CONCEPTS

SAMPLE TEST

● **Directions:** Read and work each problem. Find the correct answer. Mark the space for your choice.

Examples

A. A squirrel had 15 acorns. He lost 7 of them. How can you find the number of acorns left?

- (A) add
- (B) subtract
- (C) multiply
- (D) divide

B. What is another name for 459?

- (F) 4 hundreds, 9 tens, and 5 ones
- (G) 4 hundreds, 5 tens, and 0 ones
- (H) 5 hundreds, 4 tens, and 9 ones
- (J) 4 hundreds, 5 tens, and 9 ones

1. You are number 12 in a line of 20 people. How many people are behind you?

- (A) 9
- (B) 7
- (C) 8
- (D) 6

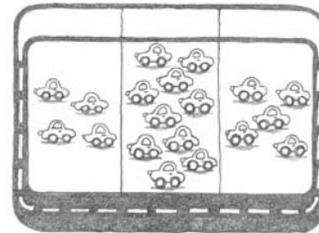

2. What is another name for 8 hundreds, 4 tens, and 3 ones?

- (F) 8,430
- (G) 843
- (H) 834
- (J) 8,043

3. Which number is greater than 754?

- (A) 759
- (B) 749
- (C) 745
- (D) 744

4. The picture below shows the number of cars parked in a lot. Which answer is the same number as is shown in the picture?

- (F) $100 + 40 + 5$
- (G) $1 + 4 + 5$
- (H) $400 + 100 + 5$
- (J) $4 + 10 + 5$

5. The number 644 is less than—

- (A) 643
- (B) 654
- (C) 640
- (D) 634

6. How many tens are in 2,674?

- (F) 2
- (G) 6
- (H) 4
- (J) 7

MATH: CONCEPTS

SAMPLE TEST (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

7. What number is represented by the chart?

Hundreds	Tens	Ones

- (A) 964
 - (B) 469
 - (C) 696
 - (D) 694
8. What number is missing from the sequence?

3	6	—	12	15
---	---	---	----	----

- (F) 8
 - (G) 9
 - (H) 10
 - (J) 11
9. Paul and Vesta used a computer to solve a problem. Which of these is the same as the number on the screen?

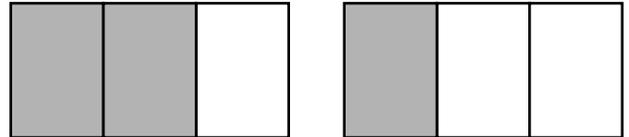

- (A) three thousand one hundred eighty
- (B) three hundred eighty
- (C) three thousand one hundred eight
- (D) three thousand eighteen

10. Round 3,322 to the nearest thousand.

- (F) 4,000
- (G) 3,300
- (H) 3,000
- (J) 4,300

- 11.

From the figures above, you know that—

- (A) $\frac{1}{3}$ is greater than $\frac{2}{3}$.
- (B) $\frac{1}{2}$ is greater than $\frac{2}{3}$.
- (C) $\frac{2}{3}$ is greater than $\frac{1}{2}$.
- (D) $\frac{2}{3}$ is greater than $\frac{1}{3}$.

12. Count by fives. Which number comes after 25 and before 35?

- (F) 50
- (G) 20
- (H) 30
- (J) 40

13. Which of these fractions is the largest?

- (A) $\frac{2}{3}$
- (B) $\frac{1}{2}$
- (C) $\frac{1}{4}$
- (D) $\frac{2}{5}$

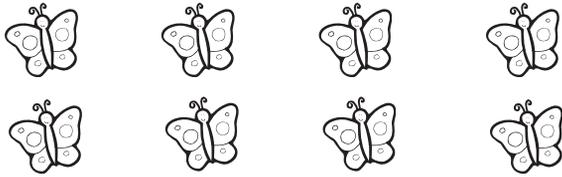

MATH: CONCEPTS
SAMPLE TEST (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

14. Which number is an even number and can be divided evenly by 7?

- (F) 26
- (G) 35
- (H) 14
- (J) 60

15. Which number sentence shows how to find the total number of butterflies?

- (A) $2 + 4$
- (B) $4 \div 2$
- (C) $4 - 2$
- (D) 2×4

16. $55 - \square = 23$ $29 + \square = 61$

Which number completes both number sentences above?

- (F) 23
- (G) 30
- (H) 32
- (J) 33

17. Which of these is closest in value to 2,000?

- (A) 1,979
- (B) 1,997
- (C) 2,004
- (D) 2,010

18. Which of these is 587 rounded to the nearest hundred?

- (F) 580
- (G) 500
- (H) 690
- (J) 600

19. Round these numbers to the nearest hundred: 179, 225, 212, 141, 255, 149. How many of them will be 200?

- (A) 3
- (B) 4
- (C) 5
- (D) 6

20. $\frac{1}{3} = \frac{\square}{6}$

What does the \square equal?

- (F) 2
- (G) 5
- (H) 4
- (J) 6

MATH: COMPUTATION

Lesson 4: Addition

Directions: Mark the space for the correct answer to each addition problem. Choose “None of these” if the right answer is not given.

Examples

A.
$$\begin{array}{r} 23 \\ + 4 \\ \hline \end{array}$$

- (A) 26
- (B) 25
- (C) 27
- (D) None of these

B. $39 + 21 =$

- (F) 59
- (G) 61
- (H) 65
- (J) None of these

The answer in an addition problem is always larger than the numbers being added.

Practice

1.
$$\begin{array}{r} 37 \\ + 11 \\ \hline \end{array}$$

- (A) 44
- (B) 46
- (C) 48
- (D) None of these

5.
$$\begin{array}{r} 519 \\ + 56 \\ \hline \end{array}$$

- (A) 575
- (B) 557
- (C) 577
- (D) None of these

2.
$$\begin{array}{r} 299 \\ + 54 \\ \hline \end{array}$$

- (F) 335
- (G) 353
- (H) 355
- (J) None of these

6.
$$\begin{array}{r} 6.97 \\ + 1.62 \\ \hline \end{array}$$

- (F) 8.95
- (G) 8.59
- (H) 8.49
- (J) None of these

3. $12 + 29 + 6 =$

- (A) 45
- (B) 49
- (C) 47
- (D) None of these

7.
$$\begin{array}{r} 270 \\ 955 \\ + 116 \\ \hline \end{array}$$

- (A) 1,343
- (B) 1,431
- (C) 1,340
- (D) None of these

4. $33 + 33 + 33 =$

- (F) 90
- (G) 96
- (H) 98
- (J) None of these

8. $12 + 17 + 25 =$

- (F) 45
- (G) 55
- (H) 54
- (J) None of these

MATH: COMPUTATION

● Lesson 5: Subtraction

Directions: Mark the space for the correct answer to each subtraction problem. Choose "None of these" if the right answer is not given.

Examples

A.
$$\begin{array}{r} 23 \\ - 5 \\ \hline \end{array}$$

- (A) 16
- (B) 18
- (C) 20
- (D) None of these

B. $49 - 12 =$

- (F) 37
- (G) 27
- (H) 39
- (J) None of these

When you are not sure about an answer, check it by adding.

● Practice

1.
$$\begin{array}{r} 62 \\ - 17 \\ \hline \end{array}$$

- (A) 44
- (B) 46
- (C) 45
- (D) None of these

5.
$$\begin{array}{r} 4.17 \\ - 0.50 \\ \hline \end{array}$$

- (A) 3.67
- (B) 3.77
- (C) 3.66
- (D) None of these

2.
$$\begin{array}{r} 200 \\ - 80 \\ \hline \end{array}$$

- (F) 30
- (G) 10
- (H) 20
- (J) None of these

6.
$$\begin{array}{r} 7.17 \\ - 1.62 \\ \hline \end{array}$$

- (F) 5.45
- (G) 5.57
- (H) 5.55
- (J) None of these

3. $55 - 5 - 9 =$

- (A) 40
- (B) 41
- (C) 42
- (D) None of these

7.
$$\begin{array}{r} 9,550 \\ - 7,010 \\ \hline \end{array}$$

- (A) 2,450
- (B) 2,540
- (C) 2,550
- (D) None of these

4. $444 - 44 - 4 =$

- (F) 440
- (G) 436
- (H) 410
- (J) None of these

8. $22 - 17 =$

- (F) 3
- (G) 4
- (H) 5
- (J) None of these

MATH: COMPUTATION

● Lesson 6: Multiplication and Division

Directions: Mark the space for the correct answer to each problem. Choose “None of these” if the right answer is not given.

Examples

- A.
$$\begin{array}{r} 3 \\ \times 4 \\ \hline \end{array}$$
- (A) 7
 - (B) 10
 - (C) 12
 - (D) None of these

- B. $10 \div 2 =$
- (F) 2
 - (G) 4
 - (H) 5
 - (J) None of these

Pay close attention to the operation sign in each question.

● Practice

1. $4 \times 0 =$
- (A) 0
 - (B) 4
 - (C) 8
 - (D) None of these

5. $17 \div 8 =$
- (A) 2 R2
 - (B) 2 R3
 - (C) 2 R4
 - (D) None of these

2. $6 \overline{)13}$
- (F) 2
 - (G) 2 R1
 - (H) 2 R2
 - (J) None of these

6. $4 \overline{)200}$
- (F) 80
 - (G) 50
 - (H) 40
 - (J) None of these

3.
$$\begin{array}{r} 7 \\ \times 10 \\ \hline \end{array}$$
- (A) 77
 - (B) 17
 - (C) 70
 - (D) None of these

7.
$$\begin{array}{r} 210 \\ \times 5 \\ \hline \end{array}$$
- (A) 1,050
 - (B) 1,500
 - (C) 1,005
 - (D) None of these

4. $4 \overline{)36}$
- (F) 7
 - (G) 8
 - (H) 9
 - (J) None of these

8. $10 \times \square = 20$
- (F) 1
 - (G) 0
 - (H) 2
 - (J) None of these

MATH: COMPUTATION**● Lesson 6: Multiplication and Division (cont.)**

Mark the space for the correct answer to each problem. Choose "None of these" if the right answer is not given.

9.
$$\begin{array}{r} 201 \\ \times 3 \\ \hline \end{array}$$

(A) 600
(B) 601
(C) 603
(D) None of these

10. $9 \div 9 =$

(F) 1
(G) 2
(H) 3
(J) None of these

11. $4 \times 11 =$

(A) 40
(B) 44
(C) 48
(D) None of these

12. $0 \overline{)12}$

(F) 12
(G) 12 R1
(H) 0
(J) None of these

13.
$$\begin{array}{r} 12 \\ \times 11 \\ \hline \end{array}$$

(A) 120
(B) 132
(C) 144
(D) None of these

14. $6 \overline{)68}$

(F) 11 R2
(G) 11 R3
(H) 11 R4
(J) None of these

15. $32 \div 4 =$

(A) 6
(B) 2
(C) 4
(D) None of these

16. $4 \overline{)200}$

(F) 10
(G) 10 R1
(H) 11
(J) None of these

17.
$$\begin{array}{r} 300 \\ \times 5 \\ \hline \end{array}$$

(A) 1,000
(B) 1,500
(C) 5,000
(D) None of these

18. $12 \times \square = 48$

(F) 2
(G) 3
(H) 4
(J) None of these

MATH: COMPUTATION

SAMPLE TEST

● **Directions:** Mark the space for the correct answer to each problem. Choose “None of these” if the right answer is not given.

Examples

A.
$$\begin{array}{r} 555 \\ + 99 \\ \hline \end{array}$$

- (A) 655
- (B) 456
- (C) 654
- (D) None of these

B. $78 - 39 =$

- (F) 117
- (G) 39
- (H) 59
- (J) None of these

1.
$$\begin{array}{r} 444 \\ - 66 \\ \hline \end{array}$$

32. $\$12.00 - \$3.91 =$ (F) \$15.91
 (G) \$8.01
 (H) \$8.09
 (J) None of these

For numbers 33 and 34, choose the answer that goes in the box.

33. $11 \times \square = 121$ (A) 10
 (B) 12
 (C) 11
 (D) None of these

34. $99 \div \square = 9$ (F) 9
 (G) 12
 (H) 10
 (J) None of these

MATH: APPLICATIONS

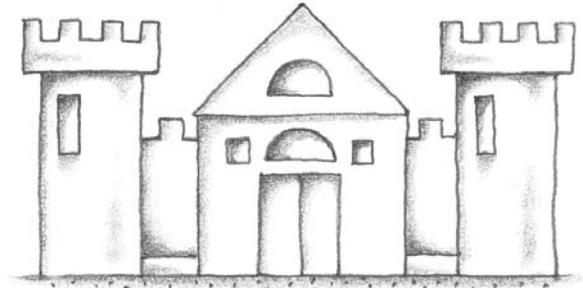

● Lesson 7: Geometry

Directions: Read and work each problem. Find the correct answer. Mark the space for your choice.

Example

A. Look at the picture of the castle made with blocks. Which shape was used only one time?

- (A) circle
- (B) triangle
- (C) rectangle
- (D) square

Pay close attention to any pictures, key words, and numbers in the problems. Some problems will be easier to solve if you use scratch paper.

● Practice

1. Which of these letters is not symmetrical?

- (A) H
- (B) O
- (C) Z
- (D) X

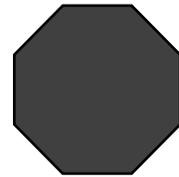

2. Look at the shapes below. Which one is to the right of the largest circle?

- (F) the largest square
- (G) the smallest circle
- (H) the smallest square
- (J) the medium-sized circle

3. This shape is called a—

- (A) pentagon.
- (B) hexagon.
- (C) octagon.
- (D) triangle.

4. A four-sided figure could be a—

- (F) circle.
- (G) triangle.
- (H) square.
- (J) pentagon.

MATH: APPLICATIONS

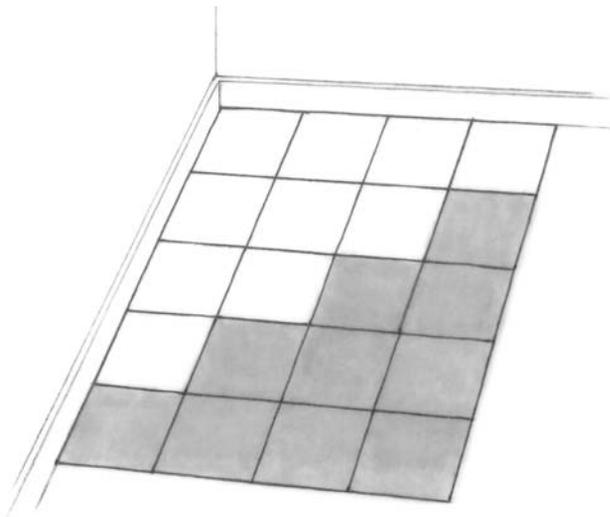

● Lesson 7: Geometry (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

5. Which of these letters is symmetrical?

- (A) J
- (B) M
- (C) P
- (D) B

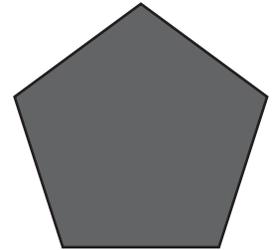

6. Look at the picture of the tile floor. What is the area of the gray tiles?

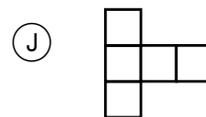

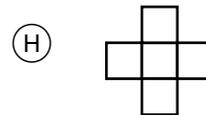

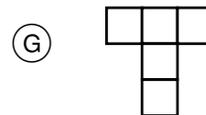

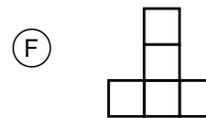

- (F) 9 square units
- (G) 5 square units
- (H) 11 square units
- (J) 10 square units

7. This shape is called a—

- (A) circle.
- (B) sphere.
- (C) pentagon.
- (D) pyramid.

8. Which of these figures is not the same shape and size as the others?

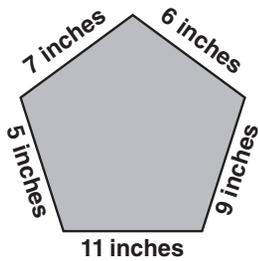

MATH: APPLICATIONS

● Lesson 7: Geometry (cont.)

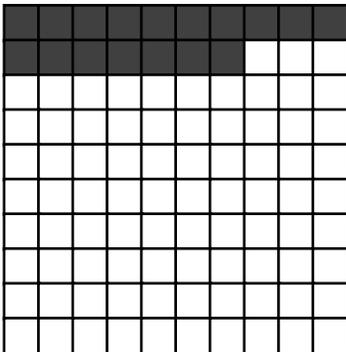

Read and work each problem. Find the correct answer. Mark the space for your choice.

9. What is the perimeter of the polygon?

- (A) 38 inches
- (B) 26 inches
- (C) 28 inches
- (D) Not enough information

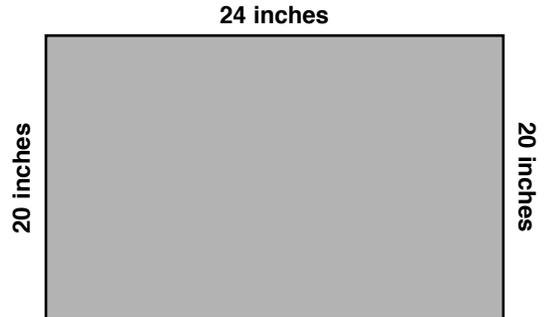

10. Look at the shaded area in this picture. If each square is an inch, what is the area of the shaded part?

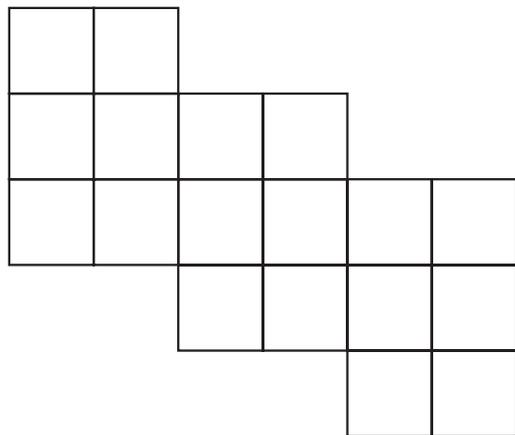

- (F) 289 square inches
- (G) 150 square inches
- (H) 19 square inches
- (J) 17 square inches

11. If the perimeter of this figure is 88 inches, the missing side is—

- (A) 12 inches long.
- (B) 20 inches long.
- (C) 24 inches long.
- (D) Not enough information

12. Look at the figure. What is its area and perimeter?

- (F) The area is 18 square units and the perimeter is 22 units.
- (G) The area is 22 square units and the perimeter is 14 units.
- (H) The area is 16 square units and the perimeter is 14 units.
- (J) Not enough information

MATH: APPLICATIONS

● Lesson 7: Geometry (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

13. A basketball is shaped like a—

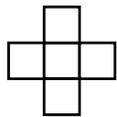

- (A) pyramid.
- (B) circle.
- (C) sphere.
- (D) rectangle.

14. A polygon that has 6 sides and 6 vertices is a—

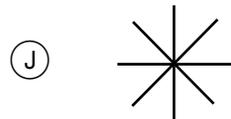

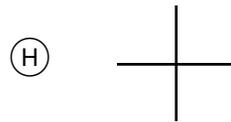

- (F) pentagon.
- (G) hexagon.
- (H) octagon.
- (J) trapezoid.

15. The perimeter of this figure is—

- (A) 12 units.
- (B) 20 units.
- (C) 14 units.
- (D) not enough information

16. Which figure shows parallel lines?

17. A can of soup is shaped like a—

- (A) pyramid.
- (B) sphere.
- (C) cylinder.
- (D) trapezoid.

18. A polygon that only has one pair of parallel sides is a—

- (F) parallelogram.
- (G) quadrilateral.
- (H) hexagon.
- (J) trapezoid.

MATH: APPLICATIONS

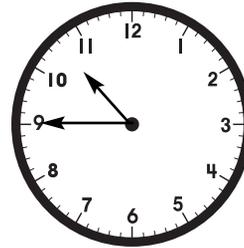

● Lesson 8: Measurement

Directions: Read and work each problem. Find the correct answer. Mark the space for your choice.

Example

A. What time does the clock show?

- (A) 9:45
- (B) 10:15
- (C) 10:45
- (D) 11:00

You will be able to answer some questions without computing. If you need to work out a problem, use scratch paper.

● Practice

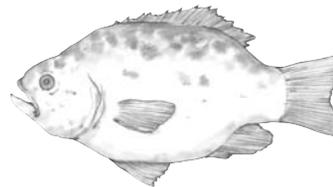

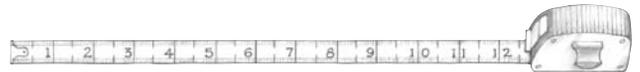

1. Which of these statements is not true?

- (A) 1 yard = 39 inches
- (B) 1 foot = 12 inches
- (C) 1 pint = 2 cups
- (D) 6 feet = 72 inches

2. How many minutes are there in one day?

- (F) 24
- (G) 60
- (H) 720
- (J) 1,440

3.

How many inches long is the fish?

- (A) 5 inches
- (B) 6 inches
- (C) 8 inches
- (D) 12 inches

4. A cake bakes for 1 hour and 10 minutes. This is the same as—

- (F) 60 minutes.
- (G) 50 minutes.
- (H) 70 minutes.
- (J) 80 minutes.

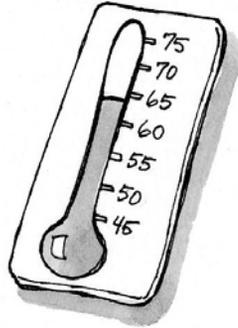

MATH: APPLICATIONS

● Lesson 8: Measurement (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

5. What is the temperature shown on the thermometer?

- (A) 74° C
- (B) 66° C
- (C) 64° C
- (D) 54° C

6. Pedro painted a picture of a house during art class. He worked for 40 minutes. The art class ended at 2:00. What time did Pedro start his picture?

- (F) 1:30
- (G) 1:20
- (H) 1:10
- (J) 1:40

7. Which of these is the same as 10 millimeters?

- (A) 1 meter
- (B) 1 kilometer
- (C) 1 centimeter
- (D) 1 decimeter

8. It takes a plane 4 hours to fly from Detroit to Los Angeles. This is the same as—

- (F) 180 minutes.
- (G) 200 minutes.
- (H) 240 minutes.
- (J) 360 minutes.

Use the calendar page for January to answer questions 9–11.

January						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
					1	2 Concert
3 Family party for Chung	4	5 Chung's birthday	6	7	8	9 Maria's sledding party
10	11 Teacher Conference	12	13	14	15	16
17 Grandpa's dinner	18	19	20 Science Fair	21	22	23
24	25	26 Field trip	27	28 Winter break	29 Winter break	30
31						

9. What day of the week is Chung's birthday?

- (A) January 5
- (B) Tuesday
- (C) January 3
- (D) Saturday

10. What is the date of the last Sunday of the month?

- (F) January 31
- (G) January 24
- (H) January 30
- (J) January 17

11. Chung's birthday is on January 5. If her book report was due on the following Tuesday, what date is it due?

- (A) January 19
- (B) January 11
- (C) January 18
- (D) January 12

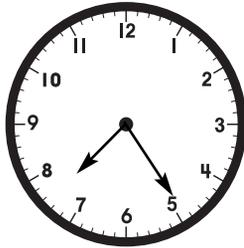

MATH: APPLICATIONS

● Lesson 8: Measurement (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

12. What time does the clock show?

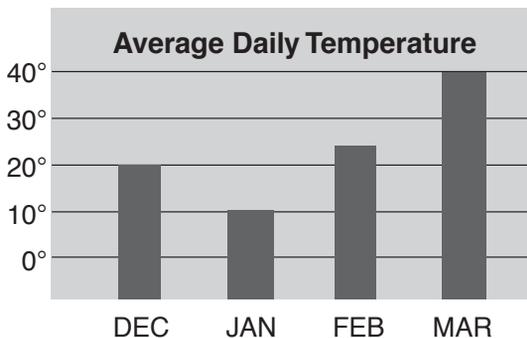

- (F) 7:30
- (G) 7:20
- (H) 7:25
- (J) 7:35

13. A student won a juggling contest, keeping all three balls in the air for 7 minutes. If she started at 1:35, what time did she finish juggling?

- (A) 1:44
- (B) 1:42
- (C) 1:43
- (D) 1:47

14. How much did the average daily temperature change from February to March?

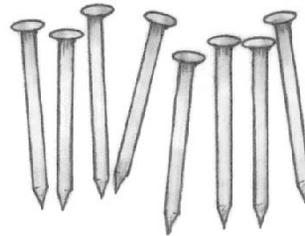

- (F) 25°
- (G) 15°
- (H) 10°
- (J) 5°

15. Tad wants to find the weight of a box of cereal. What unit of measurement will he probably find on the side of the box?

- (A) millimeters
- (B) pounds
- (C) hectoliters
- (D) ounces

16. If each of these nails were 1.5 centimeters long, how long would they be all together if you laid them end-to-end?

- (F) 10 centimeters
- (G) 11 centimeters
- (H) 12 centimeters
- (J) 13 centimeters

MATH: APPLICATIONS

● Lesson 8: Measurement (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

17. Carrie loves to go skating. She went outside with her friends at 3:00. At 4:20 they came back inside. For how long did they skate?

- (A) 60 minutes
- (B) 50 minutes
- (C) 70 minutes
- (D) 80 minutes

18. Which temperature would probably feel the most comfortable?

- (F) 20° F
- (G) 35° F
- (H) 90° F
- (J) 70° F

19. Look at the sign. If you just missed the 2:10 show, how many minutes will you need to wait for the next one?

AMAZING DOLPHIN SHOW!
Daily at
1:15
2:10
3:05
4:00
4:50

- (A) 50 minutes
- (B) 45 minutes
- (C) 60 minutes
- (D) 55 minutes

Use the calendar page to answer questions 20 and 21.

March						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

20. What is the date of the last Wednesday of the month?

- (F) March 31
- (G) March 30
- (H) March 24
- (J) March 29

21. On what day does March 11 fall?

- (A) Wednesday
- (B) Thursday
- (C) Friday
- (D) Saturday

MATH: APPLICATIONS

Lesson 9: Problem Solving

Directions: Read and work each problem. Find the correct answer. Mark the space for your choice.

Example

- A. There are 98 houses in Jan’s neighborhood. She delivers the newspaper to all but 45 of them. How many papers does she deliver?
- (A) 143
 - (B) 53
 - (C) 49
 - (D) 150

Some questions will need more than one step to find an answer. Use scratch paper to help you keep track of the steps.

Practice

Use the information below to help you solve numbers 1–3.

You have a bag of candy to share with your class. There are 25 students in your class. You want each student to get 7 pieces.

1. What operation will you need to use to figure out how many candies you need?

- (A) addition
- (B) subtraction
- (C) multiplication
- (D) division

2. How many candies do you have in all?

- (F) 200
- (G) 175
- (H) 1,500
- (J) 145

3. If two students are absent on the day you hand out the candies, how many will you have left over?

- (A) 10
- (B) 25
- (C) 12
- (D) 14

4. A tsunami is a wave created by underwater earthquakes. Tsunamis can reach heights of 37 meters. How many centimeters tall is that?

- (F) 37,000 centimeters
- (G) 3,700 centimeters
- (H) 370 centimeters
- (J) 3.70 centimeters

MATH: APPLICATIONS

● Lesson 9: Problem Solving (cont.)

5. A worker at Command Software makes \$720 a week. You want to figure out how much he makes an hour. What other piece of information do you need?

- (A) the number of weeks the worker works each year
- (B) the number of vacation days the worker takes
- (C) how much money the worker makes each day
- (D) how many hours a day the worker works

Read and work each problem. Find the correct answer. Mark the space for your choice.

Jimmy wants to buy baseball cards for his collection. At a sale, the cards are being sold in packs. Look at the chart below. Use it to answer questions 6–9.

Number of Packs	Number of Cards
2	16
4	32
6	_____
7	56

6. What number sentence do you need to find the number of cards in each package?

- (F) 2×16
- (G) $16 - 2$
- (H) $16 \div 2$
- (J) $56 - 7$

7. How many baseball cards are in each pack?

- (A) 5
- (B) 6
- (C) 7
- (D) 8

8. What is the missing number in the chart?

- (F) 38
- (G) 42
- (H) 48
- (J) Not enough information

9. If Jimmy bought 3 packs of baseball cards, how many cards would he have all together?

- (A) 18
- (B) 24
- (C) 32
- (D) 36

10. In the picture below, 1 book stands for 5 books. How many books does this picture stand for?

- (F) 25
- (G) 45
- (H) 40
- (J) 30

11. A single-scoop ice cream cone used to cost \$1.39. The price has gone up 9 cents. How much does it cost now?

- (A) \$1.42
- (B) \$1.48
- (C) \$1.58
- (D) \$1.30

MATH: APPLICATIONS**● Lesson 9: Problem Solving (cont.)**

Read and work each problem. Find the correct answer. Mark the space for your choice.

12. What other equation belongs in the same fact family as $17 \times 8 = 136$?

- (F) $13 \times 8 = 104$
- (G) $136 \div 2 = 68$
- (H) $8 \times 17 = 136$
- (J) $17 + 8 = 25$

Read the information below. Use it to answer questions 13–15.

Abraham and his friends Luke and Esther bought a large chocolate cake. Abraham cut it into 6 equal pieces. He shared the cake with his friends. Abraham had more than either Luke or Esther. Esther had more than Luke.

13. Who had the most cake?

- (A) Abraham
- (B) Luke
- (C) Esther
- (D) Not enough information

14. If Esther had 2 pieces, how many pieces did Abraham have?

- (F) 4
- (G) 3
- (H) 2
- (J) 1

15. If the cake cost \$6.00 and the 3 friends split the cost equally, how much would they each pay?

- (A) \$1.00
- (B) \$2.00
- (C) \$3.00
- (D) \$4.00

16. A doctor has her office open 5 days a week, 8 hours a day. If she sees 4 patients an hour, how many patients does she see in 1 day?

- (F) 24
- (G) 28
- (H) 38
- (J) 32

17. In a desert garden, there are 6 rows of cactus plants. Each row has 5 plants. How many cactus plants are there in the garden?

- (A) 20
- (B) 25
- (C) 30
- (D) 35

MATH: APPLICATIONS

● Lesson 9: Problem Solving (cont.)

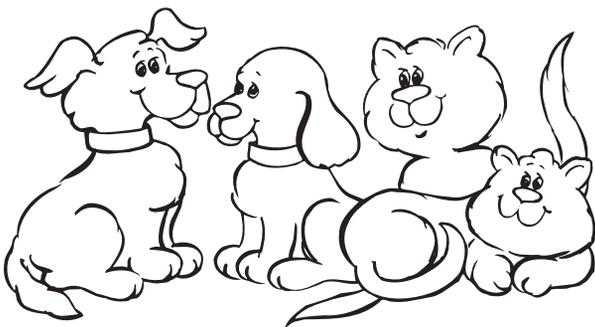

Read and work each problem. Find the correct answer. Mark the space for your choice.

18. Jawan’s sister has four coins. One is a nickel and one is a dime. Which of these amounts might she have?

- (F) 15 cents
- (G) 20 cents
- (H) 24 cents
- (J) 30 cents

19. A total of 60 people brought their pets to the show. Half the people bought dogs and 20 people brought cats. How many people brought other kinds of pets?

- (A) 30
- (B) 10
- (C) 20
- (D) 40

Look at the menu. Then answer questions 20–22.

MENU

	Hamburger.....	\$2.49	
	Cheeseburger.....	\$2.89	
	Taco.....	\$1.35	
	Hot Dog.....	\$1.75	
	Cola.....	\$1.00	
	Lemonade.....	\$1.10	

20. Choose the lunch item that costs the most.

- (F) hamburger
- (G) cheeseburger
- (H) taco
- (J) hot dog

21. If you ordered a hamburger and lemonade, how much would they cost?

- (A) \$1.79
- (B) \$2.99
- (C) \$3.99
- (D) \$3.59

22. Choose the lunch that would cost the least.

- (F) a taco and a lemonade
- (G) a hamburger and a cola
- (H) a hot dog and a cola
- (J) a taco and a cola

MATH: APPLICATIONS

SAMPLE TEST

● **Directions:** Read and work each problem. Find the correct answer. Mark the space for your choice.

Examples

A. A cereal box is shaped like a—

- (A) pyramid.
- (B) sphere.
- (C) rectangular prism.
- (D) cone.

B. A polygon with three sides and three vertices is a—

- (F) square.
- (G) triangle.
- (H) rectangular prism.
- (J) octagon.

1. Which of these shapes is symmetrical?

(A)

(B)

(C)

(D)

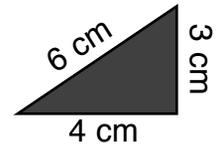

2. An alphabet block is usually shaped like a—

- (F) pyramid.
- (G) cone.
- (H) cylinder.
- (J) cube.

3. What is the perimeter of this triangle?

- (A) 13 centimeters
- (B) 12 centimeters
- (C) 17 centimeters
- (D) 18 centimeters

4. Which of these is not symmetrical?

- (F) O
- (G) P
- (H) H
- (J) T

5. Look at the shapes below. Which one is to the right of the smallest circle?

- (A) the biggest circle
- (B) the medium-sized square
- (C) the largest square
- (D) the smallest square

MATH: APPLICATIONS

SAMPLE TEST (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

6. Look at the calendar page. What is the date of the second Monday of the month?

March						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

- (F) March 1
- (G) March 7
- (H) March 8
- (J) March 2

7. Rita left dance class at 3:30. She arrived home at 4:17. How long did it take Rita to get home?

- (A) 1 hour, 17 minutes
- (B) 47 minutes
- (C) 37 minutes
- (D) 13 minutes

8. How long is the paperclip?

- (F) 3 inches
- (G) 5 inches
- (H) 3 centimeters
- (J) 2 centimeters

9. Keisha measured the length of a room at 8 feet. How many inches long is the room?

- (A) 16 inches
- (B) 24 inches
- (C) 96 inches
- (D) 106 inches

10. In the morning, the temperature was 56° F. By noon, the temperature had risen by 9° F. How warm was it at noon?

- (F) 60° F
- (G) 64° F
- (H) 65° F
- (J) 70° F

MATH: APPLICATIONS**SAMPLE TEST (cont.)**

Read and work each problem. Find the correct answer. Mark the space for your choice.

11. Which combination of coins makes \$0.40?
- (A) 1 nickel, 1 dime, 1 half-dollar
 - (B) 2 dimes, 1 nickel, 5 pennies
 - (C) 3 dimes, 1 nickel, 1 penny
 - (D) 1 nickel, 1 dime, 1 quarter
12. How many bicycles and cars would you need to have a total of 26 wheels?
- (F) 6 cars and 1 bicycle
 - (G) 5 cars and 2 bicycles
 - (H) 4 cars and 3 bicycles
 - (J) 2 cars and 7 bicycles
13. Kelton is 9 centimeters shorter than Stewart. If Stewart is 122 centimeters tall, Kelton is—
- (A) 112 centimeters tall.
 - (B) 111 centimeters tall.
 - (C) 113 centimeters tall.
 - (D) 103 centimeters tall.
14. Which of these numbers would round to 300?
- (F) 226
 - (G) 249
 - (H) 252
 - (J) 239
15. Cody played in 3 basketball games. In the first game, he scored 17 points. In the second game, he scored 22 points. In the third game, he scored twice as many points as in his first game. His points for the third game totaled—
- (A) 44 points.
 - (B) 36 points.
 - (C) 34 points.
 - (D) 42 points.
16. Andre has 2 rolls of film. One roll has 12 pictures on it. The other roll has 24 pictures on it. If it costs \$0.20 to develop each picture, how much will it cost for Andre to develop both rolls of film?
- (F) \$2.40
 - (G) \$4.80
 - (H) \$7.20
 - (J) \$6.80

MATH: APPLICATIONS

SAMPLE TEST (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

Look at the price information. Use it to answer questions 17–20.

<p>Family Tent: \$90.00 ☆ ☆ ☆</p> <p>Two Person Tent: _____</p> <p>Sleeping Bags: \$16.00</p> <p>Cooking Stove: \$25.00</p> <p>Cooking Sets: \$23.00 (dishes, pots)</p> <p>Cutlery: \$15.00</p>	
---	---

17. How much would 1 family tent and 4 sleeping bags cost?

- (A) \$154.00
- (B) \$152.00
- (C) \$90.00
- (D) \$64.00

18. The two-person tent costs $\frac{1}{3}$ the price of the family tent. It costs—

- (F) \$20.00
- (G) \$30.00
- (H) \$60.00
- (J) \$70.00

19. Which is the cheapest to buy?

- (A) 1 family tent and 2 sleeping bags
- (B) 2 two-person tents and 2 sleeping bags
- (C) 4 sleeping bags and 1 cooking stove
- (D) 1 family tent and 1 cooking stove

20. If someone bought 1 cooking stove, 1 cooking set, and 1 set of cutlery, he would pay—

- (F) \$60.00
- (G) \$62.00
- (H) \$63.00
- (J) \$59.00

21. A waiter put 9 napkins on each table. There were 9 tables total. The waiter used—

- (A) 72 napkins.
- (B) 81 napkins.
- (C) 96 napkins.
- (D) 99 napkins.

22. There are 167 students in Tony’s grade at school. Seventy-one of the students are girls. How many are boys?

- (F) 90
- (G) 98
- (H) 96
- (J) 106

MATH PRACTICE TEST

● Part 1: Concepts

Directions: Read and work each problem. Find the correct answer. Mark the space for your choice.

Examples

A. You bought 27 trading cards. You gave away 19 of them. How can you find the number of cards that are left?

- (A) add
- (B) subtract
- (C) multiply
- (D) divide

B. What is another name for 2,453?

- (F) 2 thousands, 4 hundreds, 3 tens, and 5 ones
- (G) 2 hundreds, 5 tens, and 3 ones
- (H) 2 thousands, 4 hundreds, 5 tens, and 3 ones
- (J) 4 hundreds, 5 tens, and 3 ones

1. You are number 11 in a line of 30 people. How many people are ahead of you?

- (A) 19
- (B) 11
- (C) 10
- (D) 20

2. What is another name for 4 hundreds, 2 tens, and 8 ones?

- (F) 284
- (G) 482
- (H) 428
- (J) 824

3. Which number is less than 807?

- (A) 806
- (B) 808
- (C) 809
- (D) 810

4. How many tens are in 1,525?

- (F) 5
- (G) 6
- (H) 2
- (J) 1

5. What number is represented by the chart?

Hundreds	Tens	Ones

- (A) 737
- (B) 573
- (C) 436
- (D) 537

6. Look at the number pattern in the box. Find the number that is missing.

11	22	_____	44	55
----	----	-------	----	----

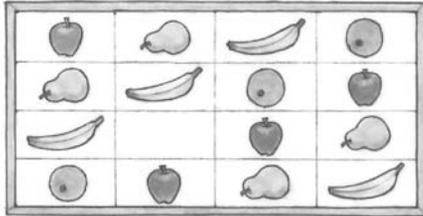

- (F) 33
- (G) 23
- (H) 66
- (J) 42

MATH PRACTICE TEST

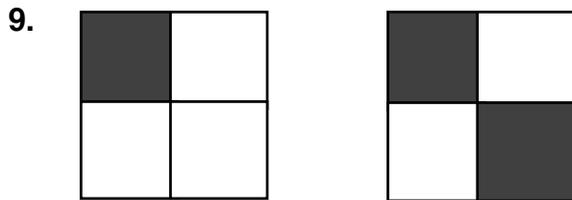

Part 1: Concepts (cont.)

7. The pattern is apple, pear, banana, orange. Which is the missing piece of fruit in the third row?

- (A) orange
 (B) pear
 (C) banana
 (D) apple
8. Round 6,679 to the nearest thousand.

- (F) 6,000
 (G) 6,700
 (H) 7,000
 (J) 7,600

From the figures above, you know that—

- (A) $\frac{1}{4}$ is greater than $\frac{2}{4}$.
 (B) $\frac{1}{2}$ is greater than $\frac{2}{4}$.
 (C) $\frac{2}{4}$ is greater than $\frac{1}{4}$.
 (D) $\frac{3}{4}$ is greater than $\frac{2}{4}$.

10. Count by tens. Which number comes after 40 and before 60?

- (F) 50
 (G) 80
 (H) 100
 (J) 60

11. Which of these fractions is the largest?

- (A) $\frac{4}{5}$
 (B) $\frac{1}{2}$
 (C) $\frac{3}{4}$
 (D) $\frac{2}{5}$

12. Which number is an even number and can be divided evenly by 9?

- (F) 24
 (G) 36
 (H) 70
 (J) 40

13. Which group of numbers has four even numbers?

- (A) 9, 12, 15, 17, 21, 26, 33
 (B) 7, 10, 12, 13, 18, 22, 37
 (C) 2, 5, 8, 14, 19, 25, 31, 41
 (D) 16, 27, 28, 29, 30, 35, 39

14. $27 + \square = 30$ $10 - \square = 7$

Which number completes both number sentences above?

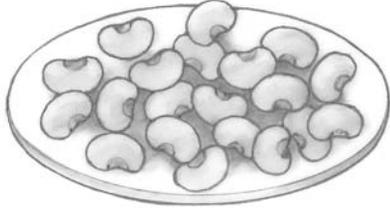

- (F) 3
 (G) 4
 (H) 5
 (J) 7

MATH PRACTICE TEST

Part 1: Concepts (cont.)

15. Which number sentence shows the total number of beans?

- (A) $18 + 2$
- (B) $30 \div 2$
- (C) $10 - 2$
- (D) 3×4

16. $71 - \square = 51$ $19 + \square = 39$

Which number completes both number sentences above?

- (F) 23
- (G) 20
- (H) 32
- (J) 30

17. Which of these is closest in value to 9,000?

- (A) 8,972
- (B) 8,991
- (C) 8,003
- (D) 8,011

18. Which of these is 622 rounded to the nearest hundred?

- (F) 600
- (G) 620
- (H) 700
- (J) 720

19. Round these numbers to the nearest hundred: 514, 559, 460, 421, 487, 551. How many of them will be 500?

- (A) 3
- (B) 4
- (C) 5
- (D) 6

20. $\frac{2}{3} = \frac{\square}{6}$

What does the \square equal?

- (F) 2
- (G) 5
- (H) 4
- (J) 6

MATH PRACTICE TEST**● Part 2: Computation**

Directions: Mark the space for the correct answer to each problem. Choose “None of these” if the right answer is not given.

Examples

A.
$$\begin{array}{r} 345 \\ + 34 \\ \hline \end{array}$$

- (A) 311
(B) 379
(C) 369
(D) None of these

B. $98 - 69 =$

- (F) 39
(G) 29
(H) 167
(J) None of these

1.
$$\begin{array}{r} 321 \\ - 75 \\ \hline \end{array}$$

- (A) 246
(B) 396
(C) 386
(D) None of these

6.
$$\begin{array}{r} 2.99 \\ - 1.15 \\ \hline \end{array}$$

- (F) 4.16
(G) 4.14
(H) 4.15
(J) None of these

2. $\frac{4}{7} - \frac{3}{7} =$

- (F) $\frac{2}{7}$
(G) $\frac{3}{7}$
(H) $\frac{1}{7}$
(J) None of these

7.
$$\begin{array}{r} 622 \\ + 222 \\ \hline \end{array}$$

- (A) 844
(B) 400
(C) 422
(D) None of these

3. $\frac{7}{10} - \frac{3}{10} =$

- (A) $\frac{5}{10}$
(B) $\frac{4}{10}$
(C) $\frac{3}{10}$
(D) None of these

8. $15 - 9 =$

- (F) 5
(G) 6
(H) 7
(J) None of these

4. $25 + 25 + 6 =$

- (F) 51
(G) 56
(H) 61
(J) None of these

9. $35 + 21 + 9 =$

- (A) 55
(B) 60
(C) 65
(D) None of these

5.
$$\begin{array}{r} 3,000 \\ - 1,350 \\ \hline \end{array}$$

- (A) 1,650
(B) 4,350
(C) 4,400
(D) None of these

10. $\$7.19 - \$2.20 =$

- (F) \$9.39
(G) \$9.99
(H) \$4.99
(J) None of these

MATH PRACTICE TEST

● Part 3: Applications

Directions: Read and work each problem. Find the correct answer. Mark the space for your choice.

Examples

A. A piece of pizza is shaped most like a—

- (A) triangle.
- (B) sphere.
- (C) circle.
- (D) octagon

B. A lamp that is 23 inches tall is—

- (F) less than 2 feet tall.
- (G) more than 2 feet tall.
- (H) less than 1 foot tall.
- (J) equal to 2 feet in height.

1. Taina had a rectangle made out of paper. She drew a line down the middle of the rectangle and then she drew a line diagonal through the rectangle. She then had 4 shapes drawn. What is one shape she made?

- (A) square
- (B) circle
- (C) triangle
- (D) oval

2. $\frac{2}{3} \square \frac{3}{2}$

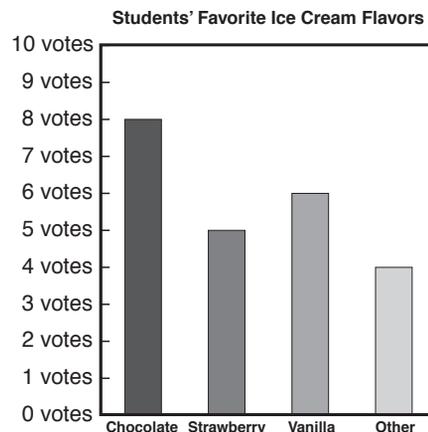

Choose the correct symbol to go in the box.

- (F) <
- (G) >
- (H) =
- (J) Not enough information

3. Which of these is symmetrical?

- (A) U
- (B) L
- (C) K
- (D) Q

Look at the graph. Use it to answer numbers 4–5.

4. How many students named vanilla as their favorite?

- (F) 2
- (G) 6
- (H) 8
- (J) Not enough information

5. How many more students voted for chocolate ice cream than for strawberry?

- (A) 3
- (B) 8
- (C) 13
- (D) Not enough information

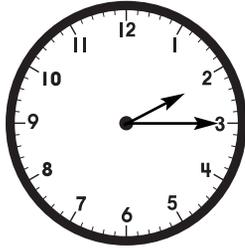

MATH PRACTICE TEST

Part 3: Applications (cont.)

Read and work each problem. Find the correct answer. Mark the space for your choice.

6. Look at the clock. How long will it take the minute hand to reach the 6?

- (F) 3 minutes
- (G) 5 minutes
- (H) 12 minutes
- (J) 15 minutes

7. What unit of weight would be best to weigh a young child?

- (A) ounces
- (B) pints
- (C) pounds
- (D) tons

Look at the calendar page. Use it to answer numbers 8–11.

APRIL						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	

8. Mr. and Mrs. Akers are going to build a deck. It will take 2 weeks to finish. They plan to start on April 7. What date will they finish?

- (F) April 24
- (G) April 21
- (H) April 14
- (J) April 23

9. Mrs. Akers is going to plant flowers around the new deck. She plans to buy the flowers on April 24 and be done in 2 days. What are the days of the week on which she will be planting flowers?

- (A) Friday and Saturday
- (B) Saturday and Sunday
- (C) Sunday and Monday
- (D) Not enough information

10. Mr. and Mrs. Akers are leaving on a trip on Monday, April 26. If they are returning the following Saturday, on what date will they return?

- (F) April 30
- (G) April 27
- (H) May 1
- (J) May 2

11. Mr. Simms has 4 boxes. In each box are 16 candles. Mr. Simms wants to use all of the candles and put an equal number on each of 8 tables. How many candles will be on each table?

- (A) 64 candles
- (B) 8 candles
- (C) 32 candles
- (D) 56 candles

SCIENCE

● Lesson 1: General Knowledge

Directions: Read each item. Choose the correct answer.

Examples

A. Which part of the flower holds the pollen?

- (A) pistil
- (B) stamen
- (C) thorax
- (D) petal

B. Which instrument is used to measure air pressure?

- (F) odometer
- (G) kilometer
- (H) thermometer
- (J) barometer

If you are not sure which answer is correct, first take away any answer choices that you know are wrong.

● Practice

1. Which of these pictures shows the result of evaporation?

- (A) 
- (B) 
- (C) 
- (D) 

2. Which does a plant not need in order to grow?

- (F) light
- (G) water
- (H) soil
- (J) milk

3. A species of animals that has been completely wiped out is called—

- (A) endangered.
- (B) extinct.
- (C) hibernating.
- (D) migrating.

4. Cotton is a fabric that comes from a plant. Which one below is a fabric that comes from an animal?

- (F) plastic
- (G) linen
- (H) wool
- (J) hemp

5. What kind of scientist studies rocks and minerals?

- (A) biologist
- (B) botanist
- (C) archaeologist
- (D) geologist

6. A rock formed by volcanic activity is called—

- (F) sedimentary.
- (G) igneous.
- (H) metamorphic.
- (J) mineral.

SCIENCE

● Lesson 1: General Knowledge (cont.)

Read each item. Choose the correct answer.

7. Which planet is between Earth and Jupiter in the solar system?

- (A) Venus
- (B) Mercury
- (C) Uranus
- (D) Mars

8. Look at the food chain. Which missing animal might fit in the space?

- (F) shrub
- (G) grass
- (H) snake
- (J) elephant

9. Which statement is true?

- (A) Elephants eat other animals, such as lions.
- (B) Elephants were hunted and killed for their tusks.
- (C) Elephants are afraid of mice.
- (D) Elephants are native to Africa and the United States.

10. The food-making material in leaves is called—

- (F) chlorophyll.
- (G) photosynthesis.
- (H) sunlight.
- (J) water.

11. Which of these is not a type of cloud?

- (A) cirrus
- (B) cumulus
- (C) humerus
- (D) stratus

12. Find the missing word in this statement: A plant's roots take in water and _____ from the soil.

- (F) worms
- (G) nutrients
- (H) crops
- (J) chlorophyll

13. Find the missing word in this statement: Conifers, such as pine trees, keep their _____ all year long.

- (A) pins
- (B) needles
- (C) cones
- (D) seeds

14. A sudden movement of the Earth's crust is called—

- (F) a volcano.
- (G) an earthquake.
- (H) a hurricane.
- (J) a tornado.

15. A scientist scratches a mineral with her fingernail, a penny, and a nail. What property is she testing?

- (A) shininess
- (B) chemistry
- (C) weight
- (D) hardness

SCIENCE**● Lesson 2: Reading and Understanding****Directions:** Read the passage. Then answer the questions.**Examples**

Can you imagine eating only once a year? In one meal, a giant snake can eat 400 times as much as it needs. It can swallow an entire cow! After its enormous meal, the snake does not need to eat again for one whole year.

A. A giant snake can eat—

- (A) 400 times its weight.
- (B) 400 cows.
- (C) 400 times as much as it needs.
- (D) 400 pounds of food.

B. How many times a year does the giant snake need to eat?

- (F) four
- (G) one
- (H) three
- (J) once a week

Read the passage first. Then skim it to find key words that will help you answer the questions.

● Practice**Cheetahs**

Cheetahs are animals that have tawny fur coats with round black spots. They belong to the cat family, just like lions and cougars. However, cheetah babies are not called kittens but cubs. The cubs start following their mother on hunts when they are only six weeks old. When they are six months old, the cubs start learning from their mother how to hunt for themselves.

It is amazing that cheetahs in the wild can run up to 60 miles per hour. They are the fastest land animals in the world. When cheetahs hunt, it is usually at night. They creep up on their prey. Then, with a single bound, the cheetah can catch an animal in a burst of speed. If it has to, a cheetah can run for over three miles at an average speed of 45 miles per hour.

Today, cheetahs are struggling to survive on land that once was good hunting ground but is now being farmed. In Africa, Southwest Asia, and India, where the cheetahs live, farmers set traps for these animals. The cheetahs hunt cattle, and the farmers lose money when their livestock is killed. In the past 10 years, for example, farmers in Namibia have trapped and killed over 7,000 cheetahs.

SCIENCE

● Lesson 2: Reading and Understanding (cont.)

Answer the questions about the passage on page 136. Be careful! Read each choice carefully before you make your decision.

1. Which one of these statements is a fact?

- (A) Cheetahs are the most beautiful animals in the world.
- (B) Cheetahs should not be killed by farmers.
- (C) Cheetahs are the fastest land animals in the world.
- (D) Cheetahs would make great pets.

2. Where is the cheetah’s habitat?

- (F) Africa, China, and India
- (G) Southwest Asia, Africa, and India
- (H) Australia, Asia, and India
- (J) Africa, Namibia, and India

3. Why might someone think that baby cheetahs should be called *kittens* rather than *cubs*?

- (A) because *kitten* is the word for baby cats, and cheetahs belong to the cat family
- (B) because *kitten* is a word that describes small animals with spots and pointed ears
- (C) because *kitten* is a word used for all cute babies
- (D) because *kitten* is the term used for baby animals

4. How old are cheetah cubs when they learn to hunt for themselves?

- (F) one year old
- (G) six weeks old
- (H) six months old
- (J) six years old

5. Which statement is true?

- (A) Cheetahs can run up to 60 miles per hour.
- (B) Cheetahs have black fur with tawny spots.
- (C) Cheetahs make traps for their prey.
- (D) Cheetahs are being killed by farmers in the United States.

6. Which statement is false?

- (F) Cheetahs have more fun hunting cattle than other animals.
- (G) Cheetahs surprise their prey with bursts of speed.
- (H) Cheetah mothers teach their cubs to hunt for themselves.
- (J) In the past 10 years, farmers in Namibia have killed over 7,000 cheetahs.

7. What conclusion can you draw from the last paragraph of the passage?

SCIENCE**● Lesson 2: Reading and Understanding (cont.)**

Read the passage. Then answer the questions.

Planet Temperatures

Scientists have looked at the other planets in our solar system to see if they would be good places to live. One of the first problems is temperature. Earth's average temperature is about 58° F, which is the temperature on a brisk fall day. Our neighbor Venus is one planet closer to the sun than Earth, and much hotter. The average temperature on Venus is 867° F. This is mostly because of Venus's thick atmosphere, which traps the sun's heat so that it cannot escape. The trapping of atmosphere in this way is called "the greenhouse effect." It is named for the way that hot air is trapped inside a greenhouse and is kept warmer than the air outside. On the other hand, Earth's neighbor Mars is one planet further away from the sun. It's a little too cold for comfort on Mars. Its average temperature is -13° F, the temperature of a very cold winter day in Chicago.

8. What is the "greenhouse effect"?

- (A) air that is trapped by glass and cannot escape
- (B) air that is heated by the sun and then trapped by a planet's thick atmosphere
- (C) air that is heated by the sun and then orbits a planet and keeps it warm
- (D) air that travels from one planet to another

9. Which of these might be an example of the greenhouse effect?

- (F) a car on a summer's day with the air conditioning on
- (G) a parked car on a summer's day with the windows closed
- (H) a car on a summer's day that is traveling down the highway with the windows open
- (J) a parked car on a summer's day with all of the windows open

10. After reading the passage, which of these statements do you think is probably true?

- (A) The average temperature increases the closer a planet is to the sun.
- (B) The average temperature increases the closer a planet is to Earth.
- (C) The average temperature decreases the closer a planet is to the sun.
- (D) The average temperature increases the further a planet is from the sun.

11. After reading the passage, which conclusion can you draw?

- (F) With the proper shelter, it would be possible to live on Mars.
- (G) With the proper shelter, it would be possible to live on Venus.
- (H) Earth's average temperature is colder than Mars' average temperature.
- (J) Earth's average temperature is warmer than Venus's average temperature.

SCIENCE

SAMPLE TEST

● **Directions:** Read each item. Choose the correct answer.

Examples

A. Paper is made from—

- (A) mud.
- (B) trees.
- (C) rocks.
- (D) weeds.

B. Which instrument is used to look more closely at a leaf?

- (F) barometer
- (G) thermometer
- (H) microscope
- (J) beaker

1. Which of these is not a mammal?

- (A) lizard
- (B) giraffe
- (C) dog
- (D) whale

2. What is the source of moonlight?

- (F) reflected light from stars
- (G) reflected light from moonbeams
- (H) reflected light from the sun
- (J) reflected light from water

3. Which of these is not part of a flower?

- (A) pistil
- (B) stamen
- (C) thorax
- (D) petal

4. Which planet is between Jupiter and Uranus in the solar system?

- (F) Pluto
- (G) Mars
- (H) Venus
- (J) Saturn

5. A sedimentary rock is often formed in a—

- (A) river bed.
- (B) volcano.
- (C) mesa.
- (D) plateau.

6. When a puddle of water disappears after the sun comes out, it is called—

- (F) displacement.
- (G) metamorphosis.
- (H) isolation.
- (J) evaporation.

7. Which storms are given human names, such as Michael or Eva, by scientists?

- (A) thunderstorms
- (B) tornadoes
- (C) hurricanes
- (D) blizzards

8. A snake is a—

- (F) mammal.
- (G) rodent.
- (H) insect.
- (J) reptile.

SCIENCE

SAMPLE TEST (cont.)

Read the passage. Then answer the questions.

Wonderful Webs

Different types of spiders make different kinds of webs from the silk they spin. Tangled webs are made by house spiders and black widow spiders. These webs of tangled silk are used to trap insects for food in much the same way that a fishnet traps fish. Sheet webs, made by platform spiders, are found in tall grass or in the branches of trees. When hunting, the platform spider hides under the sheet waiting for prey. Then it pulls its catch through the webbing. The triangle spider makes a web shaped like its name. The sticky strands of this web catch insects that land on the surface.

9. What kind of web does a triangle spider weave?

- (A) a pattern of circles
- (B) a tangled-silk web
- (C) a sticky, triangle-shaped web
- (D) a messy cobweb

10. What is the purpose of a sheet web?

- (F) to trap insects on the sticky surface
- (G) to confuse insects and make them dizzy
- (H) to serve as a place for the platform spider to hide
- (J) to serve as a net to trap insects for food

11. Which of these is a fact about spiders?

- (A) Platform spiders are smarter than other spiders.
- (B) All webs work in the same way.
- (C) Most webs are woven in a pattern of circles.
- (D) Webs are used by spiders as a means of getting food.

12. Which of these is not a term used when describing spiders?

- (F) spin
- (G) web
- (H) wings
- (J) hunt

13. What conclusion can you draw from this passage?

SCIENCE PRACTICE TEST**● Part 1: General Knowledge****Directions:** Read each item. Choose the correct answer.**Examples****A. On the Fahrenheit scale, water freezes at—**

- (A) 32°
- (B) 0°
- (C) 24°
- (D) 50°

B. The complete path through which electricity flows is called a—

- (F) sensor.
- (G) wire.
- (H) circuit.
- (J) plug.

1. What are the cells that tell the body how to think and feel?

- (A) skin cells
- (B) vein cells
- (C) blood cells
- (D) nerve cells

2. The color that reflects all light is—

- (F) white.
- (G) blue.
- (H) yellow.
- (J) black.

3. Heat and sound travel in—

- (A) beams.
- (B) drops.
- (C) waves.
- (D) currents.

4. When the bright part of the moon grows larger, it is—

- (F) waxing.
- (G) waning.
- (H) growing.
- (J) whitening.

5. What is it called when you add water to weaken a liquid?

- (A) improve
- (B) dilute
- (C) drown
- (D) destroy

6. The total changes during the life of a plant or animal is called its—

- (F) career.
- (G) journey.
- (H) circuit.
- (J) life cycle.

7. What are the north and south ends of a magnet called?

- (A) borders
- (B) caps
- (C) poles
- (D) tips

8. What is the name of the change a caterpillar goes through to become a butterfly?

- (F) cocoon
- (G) larva
- (H) insect
- (J) metamorphosis

SCIENCE PRACTICE TEST

● Part 2: Reading and Understanding

Directions: Read the passage. Then answer the questions.

From Trees to Paper

Paper is made from tree logs. Logs are shipped to the paper mills by truck, train, or waterway. At the mills, the bark is removed from the logs. The bark may be blasted off with high water pressure. Or, the logs may be placed in steel drums where they turn and bang against each other. This cleans the bark off the logs.

Next, the logs are cut into thin chips about one-half inch long. Machines feed the chips into a giant pressure cooker called a digester. The digester separates the wood fibers and creates pulp. Bleach is added and the pulp fibers change from black to white. At this stage, chemicals are added to make different kinds of paper.

Water is added and the pulp mixture is sprayed onto a fast-moving screen. As water drains through the screen, paper begins to form. The paper is dried and wound onto big rollers. Then the rolls are stored until someone orders the paper.

1. Which shows the correct order of the process of turning trees into paper?

- (A) logs, chips, rolls, pulp
- (B) chips, pulp, logs, rolls
- (C) logs, chips, pulp, rolls
- (D) pulp, bark, rolls, paper

2. How are wood chips turned into pulp? Be sure to use complete sentences in your answer.

3. How are the pulp fibers changed from black to white?

- (F) with high water pressure
- (G) with a pressure cooker
- (H) with water
- (J) with bleach

4. Different kinds of paper are made by—

- (A) feeding paper into a digester.
- (B) by drying paper for longer times.
- (C) by adding chemicals to the pulp.
- (D) by rolling the paper for storage.

SOCIAL STUDIES

● Lesson 1: General Knowledge

Directions: Read each item. Choose the correct answer.

Examples

A. Which state is north of Virginia?

- (A) Georgia
- (B) North Carolina
- (C) Massachusetts
- (D) Florida

B. Which of these climates is arid?

- (F) rainforest
- (G) forest
- (H) desert
- (J) prairie

Look for key words in the questions and readings to help you find the correct answers.

● Practice

1. The United States is a—

- (A) continent.
- (B) country.
- (C) hemisphere.
- (D) state.

2. Which of these men was not an explorer?

- (F) Hudson
- (G) Balboa
- (H) Franklin
- (J) Columbus

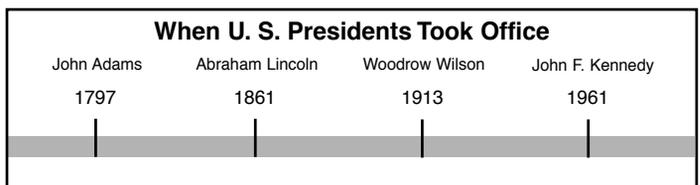

3. Which of these shows a product cycle?

- (A) A puppy is born; it is raised by a family; it learns how to sit on command.
- (B) A farmer buys a new field; he plants it; he waters the plants as they grow.
- (C) Ice cream is made; it is sold to a store; the store sells an ice cream cone to someone.
- (D) A spider spins a web; it catches food; it feeds its young.

4. Which country is south of the Equator?

- (F) France
- (G) Afghanistan
- (H) Mexico
- (J) Australia

Look at the timeline. Use it to answer questions 5–6.

5. Which person became President first?

- (A) Woodrow Wilson
- (B) John F. Kennedy
- (C) Abraham Lincoln
- (D) John Adams

6. Which person became president in 1861?

- (F) Woodrow Wilson
- (G) John F. Kennedy
- (H) Abraham Lincoln

SOCIAL STUDIES**● Lesson 1: General Knowledge (cont.)**

Read each item. Choose the correct answer.

7. The Boston Tea Party happened because—

- (A) workers didn't like to sail.
- (B) people believed the tax on tea was not fair.
- (C) Boston people wanted to take a break and have fun.
- (D) the people of Boston wanted to settle new lands.

8. A compass rose is—

- (F) a type of flower.
- (G) an imaginary line around the Earth.
- (H) a way to tell directions.
- (J) a tool for making math shapes.

9. One of the rights and responsibilities of a U.S. citizen is to—

- (A) direct traffic.
- (B) fight fires.
- (C) vote.
- (D) read.

10. What is the possible effect of a drought?

- (F) heavy thunderstorms
- (G) lack of food
- (H) plentiful crops
- (J) many flowers

11. What is the capital of New York?

- (A) Rochester
- (B) New York City
- (C) Lansing
- (D) Albany

12. The land on Earth is divided into _____ continents.

- (F) four
- (G) nine
- (H) six
- (J) seven

13. Which event probably helped pioneers decide to go to California?

- (A) the discovery of gold
- (B) the laying of railroad tracks
- (C) the founding of San Francisco
- (D) the drop in travel costs

14. If you were traveling from New York City to Paris, you would have to—

- (F) cross a mountain range.
- (G) cross an ocean.
- (H) cross a whole continent.
- (J) cross the Equator.

SOCIAL STUDIES**● Lesson 2: Reading and Understanding****Directions:** Read the passage. Then answer the questions.**Example**

In medieval times, a village usually was protected by a lord or knight. The village would surround the lord's castle. Peasants who worked the land were called serfs.

A. Who protected villages in medieval times?

- (A) a knight or lord
- (B) a serf
- (C) a peasant
- (D) None of the above

The Voyage of the Mayflower

The Puritans came to America for religious freedom. In the early 1600s, most English people attended the Church of England. A group of people did not like the Church of England's services. This group became known as the Puritans. They had a difficult time in England because of their beliefs and were not treated well.

A man named William Bradford decided to lead a group of Puritans to Holland. The Dutch people were kind to the Puritans, but the country never felt like home to the wandering group. They started to call themselves Pilgrims, which means a group of people who go on a quest or journey because of their beliefs. The group decided to travel to the New World and make their home there.

In September of 1620, a ship named the Mayflower set sail for America, carrying 35 Pilgrims and 67 hired craftspeople. They were heading for Virginia, but a storm blew the ship off course. The Mayflower landed hundreds of miles north at what is now called Cape Cod in Massachusetts.

The Pilgrims had to make a decision. Should they sail down the coast to Virginia or try to build their settlement in this northern land? Some of the hired workers wanted to go to Virginia, as they had been promised. Some of the Pilgrims wanted to stay, because they were tired and ill after their long trip. The Pilgrim leaders decided that everyone had to sign an agreement. This contract, called "The Mayflower Compact," stated that for the good of the colony, everyone had to obey the leaders and stay together to build a settlement.

The Pilgrims lived on board the Mayflower until houses were built for them on the mainland. Many of the Pilgrims were not able to move into their new homes until the spring of 1621.

SOCIAL STUDIES

● Lesson 2: Reading and Understanding (cont.)

Answer the questions about the passage on page 146.

1. **Why did the Puritans decide to leave England?**
 - (A) because it did not feel like home
 - (B) because the Puritans were not treated well in England
 - (C) because the Puritans wanted to settle in Massachusetts
 - (D) because the Puritans wanted to explore Holland

2. **What is the meaning of the word *compact* in this passage?**
 - (F) something small
 - (G) a powder holder
 - (H) a contract
 - (J) a will

3. **Who was William Bradford?**
 - (A) the captain of the Mayflower
 - (B) one of the hired workers for the Pilgrims
 - (C) the man who led the Pilgrims to Holland
 - (D) a leader of a settlement in Virginia

4. **What went wrong with the Pilgrims' plan to settle in Virginia?**
 - (F) Their ship was blown off course to the south.
 - (G) Their ship was blown off course to the north.
 - (H) They decided to go back to Holland.
 - (J) They decided to sail to Massachusetts.

5. **Where did the Pilgrims live during the winter of 1620?**
 - (A) in houses that had been built for them
 - (B) on the Mayflower
 - (C) in the settlement in Virginia
 - (D) on the Mayflower or in houses as they were built

6. **Why did the Puritans call themselves Pilgrims?**
 - (F) because they were grim and unhappy
 - (G) because they were on a trip connected to their beliefs
 - (H) because they were crossing an ocean
 - (J) because they were sure they were in the right

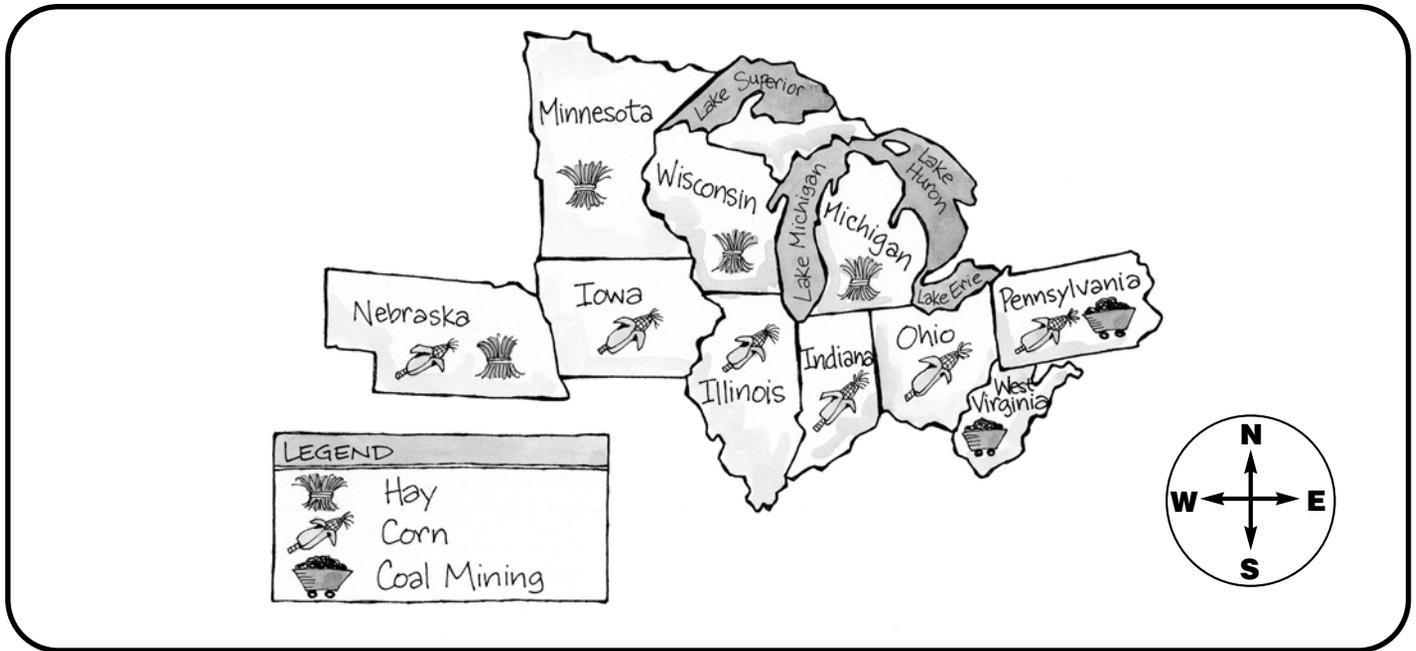

7. **Do you think that the Mayflower Compact was needed? Explain your answer.**

SOCIAL STUDIES

● Lesson 2: Reading and Understanding (cont.)

Look at the map. Then answer the questions.

8. Which state does not grow hay?

- (A) Wisconsin
- (B) Minnesota
- (C) Illinois
- (D) Michigan

9. Coal mines are found in—

- (F) Iowa and Pennsylvania.
- (G) West Virginia and Michigan.
- (H) West Virginia and Pennsylvania.
- (J) Ohio and Minnesota.

10. Which states are the chief growers of hay?

- (A) the states to the north: Michigan, Minnesota, and Wisconsin
- (B) the states to the east: Pennsylvania and West Virginia
- (C) the states to the west: Nebraska and Iowa
- (D) None of the above

11. What conclusion could you draw from this map?

- (F) The states touching the Great Lakes are the best for growing hay.
- (G) The states to the west are the best for coal mining.
- (H) The states to the east are the best for growing corn.
- (J) None of the above

SAMPLE TEST

● **Directions:** Read each item. Choose the correct answer.

Examples

A. What invention helped to clean raw cotton?

- (A) sewing machine
- (B) plow
- (C) combine
- (D) cotton gin

B. Who was the first President?

- (F) George Washington
- (G) John F. Kennedy
- (H) Abraham Lincoln
- (J) John Adams

1. A government in which the leaders are elected is called a—

- (A) monarchy.
- (B) dictatorship.
- (C) democracy.
- (D) empire.

2. The lines that go from top to bottom on a globe are called—

- (F) longitude lines.
- (G) latitude lines.
- (H) poles.
- (J) equators.

3. What are three rights promised to U.S. citizens?

- (A) eating, drinking, and finding shelter
- (B) life, liberty, and the pursuit of happiness
- (C) using computers, spelling, and typing
- (D) voting, keeping promises, and going to school

Look at the timeline. Use it to answer questions 4–5.

Pioneers in the United States			
Thomas Jefferson makes Louisiana Purchase	Journey of Lewis and Clark to the west	Start of great migration westward on California and Oregon trails	Gold discovered in California
1803	1804 – 1805	1840s	1848

4. When was the great migration westward?

- (F) before Lewis and Clark’s journey and after gold was discovered in California
- (G) after the Louisiana Purchase and before Lewis and Clark’s journey
- (H) after Lewis and Clark’s journey and before the Louisiana Purchase
- (J) after Lewis and Clark’s journey and before gold was discovered in California

5. How long was Lewis and Clark’s journey to the west?

- (A) one year
- (B) two years
- (C) three years
- (D) four years

SOCIAL STUDIES
SAMPLE TEST (cont.)

Read the passage. Then answer the questions.

August 19, 1874

Dear Will,

By the time this letter reaches you, I will have reached California. It has taken us so many weeks, and I am eager for our journey to be over.

We are passing through Blackfoot territory now. Last week, we saw one of their villages, with cone-shaped homes made from buffalo skin. These stood in a circle around a central fire. At night, the firelight glows through the hides, and it is quite beautiful. Though their homes are very different from ours, the sight of this village made me long for a home of my own. I cannot wait to reach California!

Your friend,
Silas

6. Silas is probably—

- (F) a Blackfoot Indian.
- (G) a settler moving to the East Coast.
- (H) a settler moving to the West Coast.
- (J) a man living in the Midwest.

7. A Blackfoot home is a—

- (A) tepee.
- (B) pueblo.
- (C) tent.
- (D) longhouse.

8. The Blackfoot territory was probably—

- (F) in the mountains.
- (G) on the prairie.
- (H) on the ocean shore.
- (J) in California.

9. What clue do you have about the location of the Blackfoot territory?

- (A) This is a tribe that was traveling to California.
- (B) This is a tribe that lived on the mountainside.
- (C) This is a tribe that hunted buffalo in its habitat.
- (D) This is a tribe that had beautiful homes.

SOCIAL STUDIES PRACTICE TEST**● Part 1: General Knowledge****Directions:** Read each item. Choose the correct answer.**Examples****A. The names of Columbus's three ships were—**

- (A) the Mayflower, the Santa María, and the Bismarck.
- (B) the Niña, the Pinta, and the Santa Anna.
- (C) the Niña, the Pinta, and the Santa María.
- (D) None of the above

B. Which state is a peninsula?

- (F) Nevada
- (G) Florida
- (H) Washington
- (J) Georgia

1. In what direction does the Mississippi run?

- (A) south to north
- (B) east to west
- (C) north to south
- (D) None of the above

2. Which of the following was probably not a result of the invention of the telephone?

- (F) People wrote fewer letters.
- (G) News traveled faster.
- (H) People talked to each other more often.
- (J) People walked over to each other's houses more often.

3. Of what use are longitude and latitude?

- (A) They make patterns on globes and maps.
- (B) They help people stay on course.
- (C) They make new math problems possible.
- (D) They bring cities closer together.

4. What is one effect on the economy when people lose their jobs?

- (F) They buy new cars to make themselves feel better.
- (G) They get to sleep later.
- (H) They do not have as much money to buy goods.
- (J) They can spend more time in their gardens.

5. Montana is a—

- (A) country.
- (B) city.
- (C) capital.
- (D) state.

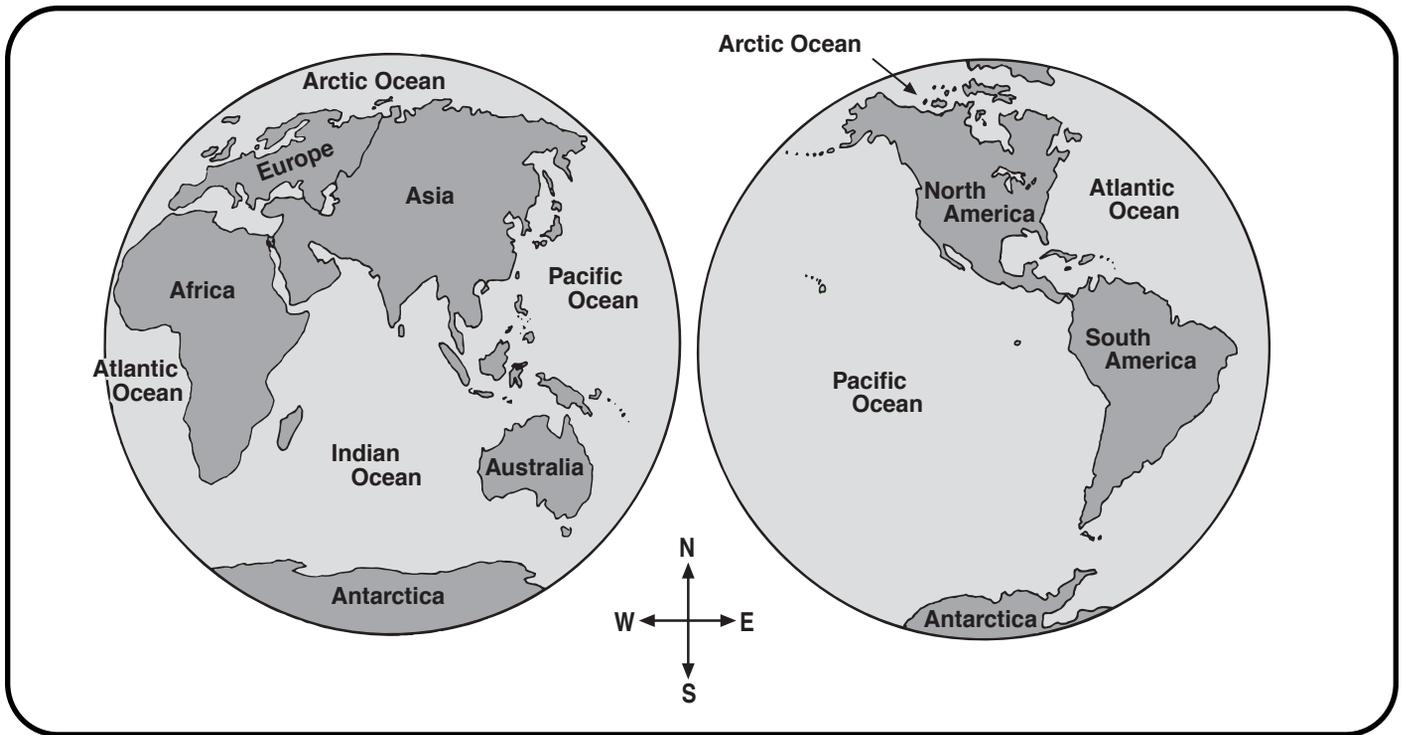

6. Who did the colonies fight against in the Revolutionary War?

- (F) the French
- (G) the Spanish
- (H) the Dutch
- (J) the British

SOCIAL STUDIES PRACTICE TEST

Part 1: General Knowledge (cont.)

Look at the map. Use it to help you answer numbers 7–11.

7. What ocean is north of North America?

- (A) the Indian Ocean
- (B) the Atlantic Ocean
- (C) the Arctic Ocean
- (D) the Pacific Ocean

8. Which ocean is the largest on Earth?

- (F) the Pacific Ocean
- (G) the Atlantic Ocean
- (H) the Indian Ocean
- (J) the Arctic Ocean

9. What North American lake system is large enough to see on this world map?

- (A) the Finger Lakes
- (B) the Great Lakes
- (C) the Great Salt Lake
- (D) the Barrier Reef

10. Which continent is closest to Antarctica?

- (F) Africa
- (G) Asia
- (H) South America
- (J) Europe

11. Australia is a—

- (A) continent.
- (B) country.
- (C) country and continent.
- (D) None of the above

SOCIAL STUDIES PRACTICE TEST

● Part 2: Reading and Understanding

Directions: Read the passage. Then answer the questions.

Abigail Adams

Abigail Adams was the wife of one American President and the mother of another. When she was a girl, she had no idea she would grow up to hold such an important position in history. She was born in 1744. Although women were not given much schooling in those days, Abigail was allowed to study and read as much as she liked.

Abigail met and married John Adams in 1764. They moved to the farm that John owned in Braintree, Massachusetts. Then trouble started with the British. John and Abigail sided with the colonists during the Revolutionary War. After helping to write the Declaration of Independence, John played an important part in helping to start the new nation. He always had Abigail to advise him.

Abigail was one of the earliest Americans to support women’s rights. When John was working on the Declaration of Independence, she urged him to add a phrase to say that all men and women were equal. During the war, Abigail’s letters were John’s main way of finding out about the fighting and the location of British ships. After the war was over, she and John were the first people to live in the White House. John depended on Abigail’s wisdom and ideas his whole life.

1. **What made Abigail’s early life unusual?**
 - (A) She ran a farm.
 - (B) She advised her husband.
 - (C) She was allowed to read and study as much as she wanted.
 - (D) She was born in 1744.

2. **Why were Abigail’s wartime letters important?**
 - (F) They helped her husband feel better.
 - (G) They reported information about the war.
 - (H) They told John Adams about his business.
 - (J) They were well written.

3. **How do you think Abigail Adams felt about the rights of women? Give examples to support your ideas.**

From the Premier Educational Publisher

***Spectrum Test Practice* helps young learners gain confidence by working with actual test questions and answer sheets.**

This workbook offers students

- Skill lessons with test-taking clues and sample questions to help students become familiar with test formats and content.
- Preliminary sample tests with guided instructions, followed by comprehensive practice tests.
- Confidence-building practice in reading, language arts, writing, basic skills, science, social studies, and math.
- An answer sheet that simulates the actual testing experience.

This workbook offers teachers

- Correlations to state standards and standardized tests including TerraNova CAT™ and CTBS®.
- A comprehensive practice test for each subtopic.
- Skill lessons to use as independent work in centers, for homework, or as seatwork.

Look for these additional titles to help your students build essential skills in the following key subject areas:

SPECTRUM SERIES

Basic Concepts and Skills (Preschool)
Learning Letters (Preschool)
Math Readiness (Preschool)
Dolch Sight Words (Grades K–1)
Geography (Grades 3–6)
Language Arts (Grades 2–6)
Math (Grades K–8)

Phonics (Grades K–6)
Reading (Grades K–6)
Spelling (Grades 1–6)
Writing (Grades 1–8)
Enrichment Math and Reading (Grades 3–6)
Test Prep (Grades 1–8)
